Premium Features

EasyToClean Enamel

The smooth enamel interior helps make cleaning your oven easier

Catalytic Cleaning

It is easy to clean and time saving: the catalytic liners work when the oven is heated to 220°C and residue is oxidized

Pyrolytic Cleaning

Our Pyrolytic ovens mean no more scrubbing, keeping your oven sparkling clean. Self-cleaning process is set at 480°C that turns all residue to ash which can be easily removable from the oven

ActiveCool

ActiveCool technology keeps the door temperature safe even when self-cleaning. The 4 glass panel door ensures the outer surface remains cool, even at pyrolytic temperatures (480°C)

VapClean & VapClean+

By softening the oven dirt with steam, the VapClean & VapClean+ functions help take the effort out of cleaning, gently steaming the inside of your oven

Remove&Wash

Taking the hassle out of keeping your oven clean, our removable inner glass oven door makes it incredibly easy to wash even in a dishwasher

Family Size Cavity

The bigger the better. The large cavity makes it suitable to cook for a large family

Premium Features

Autocooking Programs

Created by pro-chefs, 50-150 built in programs create the ultimate oven to dish experience. We have created this to make your life easier; simply press a program and let the oven do the rest: set time, temperature, and oven function

RoastPro Meat Probe

Perfection temperature of your meat and make sure it is cooked to you like. Simply by using the sensor you can control the core. The ultimate cooking control gets your meat just the way

RoastPro Turnspit

RoastPro Turnspit for all round cooking perfection. It delivers perfectly cooked whole chicken every single time

PowerBoost

Getting your food off to a flying start. It reduces the preheating duration by 50%, helping you to save time and energy

Telescopic Rails

Enables you to take heavy trays out safely and effortlessly from the hot oven

SoftClosing Door

The oven door closes by itself gently and quietly thanks to a special hinge

DoorSwitch

It provides better vision by turning lighting on when the oven door is open and energy saving by turning off lighting when it is closed and inactive

Premium Features

SteamAssisted

Enables you to take heavy trays out safely and effortlessly from the hot oven

AirCurtain

When oven door is opened during cooking, it creates an air stream between control panel and oven bottom panel.

AirStream

There are 2 function fans in the oven cavity which operate to create hot air stream and distribute the heat evenly through the cavity.

Love2Cook

While containing 150 autocooking programs, colourful 4,3" knob control TFT LCD display with Wi-Fi connectivity enabling remote control

Pizza Gourmet

Perfectly baked pizza in just 3 minutes with scorching temperature of 320°C

Premium Technology

AirCurtain

FUNCTIONALITY

When oven door is opened during cooking, it creates an air stream between control panel and oven bottom panel.

BENEFIT

Protects the end user from being exposed to hot air when the oven door is opened.

Premium Technology

AirStream

FUNCTIONALITY

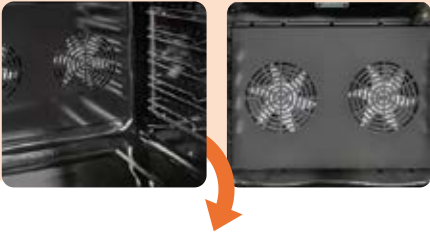

Two Fan Structure

There are 2 function fans in the oven cavity which operate to create hot air stream and distribute the heat evenly through the cavity.

Cavity with air canals

Thanks to these canals/holes on the sides of the cavity a horizontal air stream is created.

BENEFIT

Multiple dishes

(it saves both time and energy, enabling to make up to 5 pizzas or 100 cupcakes, all at once. It is ideal for large family)

Multi-dish cooking

(4 of dish can be cooked at the same time, keeps the smell of the dishes separated)

Optimum cooking results on every level of 5

(Picking the right tray level will not be a problem anymore)

Saves time and energy (Tested by Intertek)

Cooking at once helps **68% time saving** compared to cooking one by one, Cooking 4 different dishes (without odor mixing) at once helps **63% energy saving** compared to cooking one by one.

Premium Technology

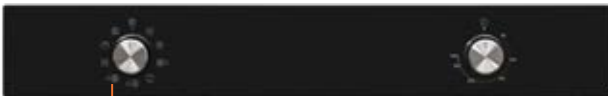

AquaBoost Oven

Pour the water into the chamber

Key Features

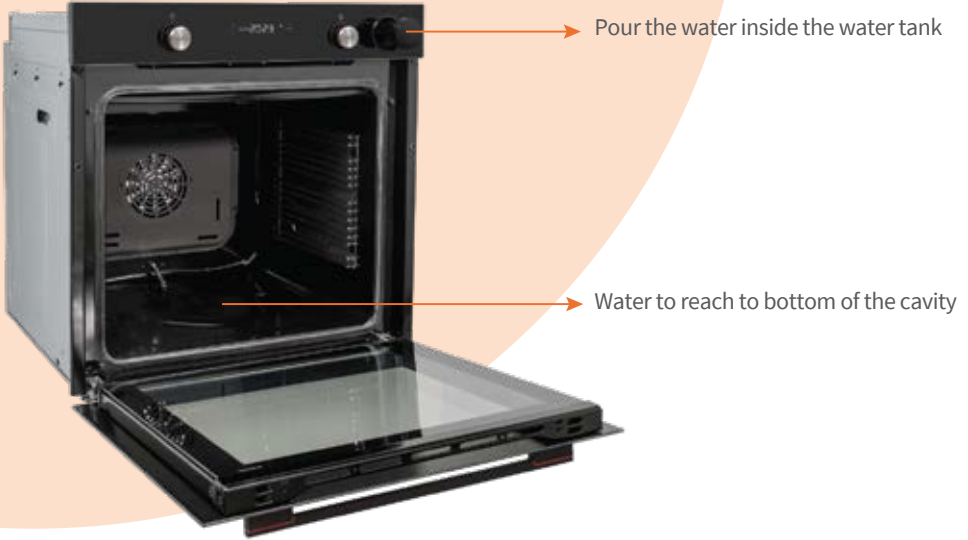

- Available in 75lt. standard single built-in oven platform
- Can be activated with the poured water into the form on the oven cavity base.
- Pyrolytic enamel coating inside the cavity
- Several different cooking functions are available with steam icon

Select any function with Steam Icon

Premium Technology

AquaBoost + Oven

Key Features

- Available in 75lt. standard single built-in oven platform
- Water tank can hold up to 300 ml of water.
- Can be activated with any cooking function by just pressing to the touch steam icon on the control panel.
- Pyrolytic enamel coating inside the cavity
- Control the timing and amount of water flowed to the form on the cavity base

Premium Technology

Steam Assisted Cooking

FUNCTIONALITY

Steam Assisted Cooking

Manual or auto added moisture (thanks to a water tank with push-pull mechanism and to a steam generator).

VapClean+

Steam cleaning program to soften the oven dirt. The oven generates steam with water from the tank.

BENEFIT

Optimum baking and roasting results

(crispy & browned outer surface, juicy inside; the oven adapts steam quantity to the chosen autocooking program)

+ Fresh steam

(the steam generator is outside the cavity)

+ Easy to clean

Bread Cooking Comparison

Standard cooking without steam feature

AquaBoost Cavity, 100 ml of water is poured into the chamber at the bottom of the oven before cooking.

AquaBoost+ Cavity, 100 ml of water is poured into the chamber at the bottom of the oven in the 10th minute.

Steam Assisted oven, which has an automatic bread baking recipe

New Child Lock

Key Features

- Easy to open/close the oven door
- Safe design that prevents the door from being opened accidentally
- Through independent structure, it will be suitable for use with all door types.

AquaBoost Option for Pyrolytic BI Ovens

Without Steam

With Steam

Key Features

- Available with 65L and 75L built-in oven platforms
- Enhanced baking performance with steam in pyrolytic ovens
- AquaBoost Oven Cavity: A special enamel coating for this feature
- Pyrolytic Function
- Better cleaning results with the help of Pyrolytic Function
- Better cooking results with the help of the AquaBoost Function.

Premium Technology

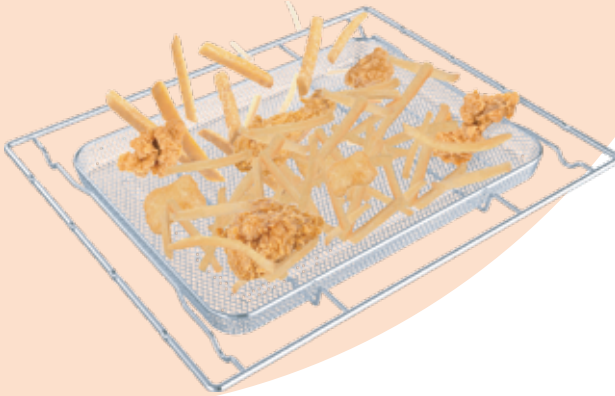

Pizza Gourmet

Key Features

- Available with 75lt. Standard and Pyrolytic BI ovens
- Preheating duration is more or less 30 minutes
- Pizza is ready at the end of 3 minutes @320°C, recommended function for standard oven «Alt+Fan+Ring», for pyrolytic oven «Top+Bottom+Fan»
- Baking pizza gets easier with the help of the pizza stone and shovel

Sharp AirFry

Key Features

- Available for all built-in oven platforms, FS 60x60, FS 90x60, DO 60x60 platforms
- AirFry tray makes healthier air frying of potato, chicken, chestnut, meat and vegetable.
- Made of stainless steel
- Dishwasher safe

**BUILT-IN HOBS
PREMIUM FEATURES
TECHNOLOGIES
LINE-UP**

**PREMIUM FEATURES
TECHNOLOGIES**

Premium Features

CookBridge

The ultimate in versatility CookBridge provides flexibility for pans of all shapes and sizes. By simply combining two induction zones you can create an extra large zone for big pots and pans

Stop&Go

Freeze time when you need to. Our Stop&Go technology enables you to pause and take that all important call when cooking, then press again to continue

AutoHeat Control

Simple yet effective, Sharp puts the most common cooking tasks at your fingertips, allowing you to boil, fry, melt chocolate and keep your food warm at the touch of a button

EasytoClean Surface

The smooth glass ceramic surface is especially easy to clean

Slider Touch

Intuitive sliding controls allow you to select the power level easily

Timer

When the hob is switched on, an independent timer (1 to 99 minutes) can be programmed for every cooking zone so that they switch off automatically. When the hob is switched off, you also have the possibility to set a minute minder

InductionBoost

Maximum power in seconds for a speed-up heating and a cooking time reduction

Premium Features

Child Lock

Young minds are inquisitive but there's no need to worry with this safety feature that keeps wandering fingers at bay. When it is activated, no control can be changed.

Hot surface indicator

After switching off the cooking zone, an "H" will be displayed until the assigned cooking zone temperature is in an uncritical level. It reminds you not to touch a hot cooking zone. You can also use the residual heat for defrosting or maintaining a dish warm.

Extended2xZone

This extendable cooking zone allows you flexibility to cook with pans of different size perfectly.

2xZone

Small to medium size variation, our 2xZone allows true flexibility when it comes to selecting the perfect size for your pans.

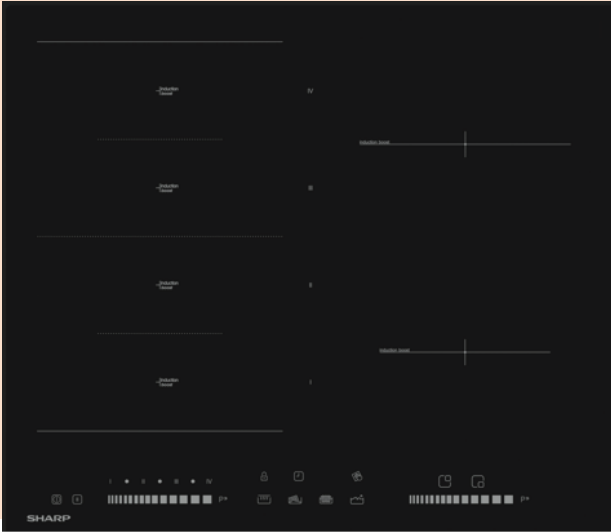

3xZone

Small to medium size variation, our 3xZone allows true flexibility when it comes to selecting the perfect size for your pans.

Hybrid Induction Hobs
