Be Original.

By performing an additional hot rinse at the end of the cycle this removes soap residue that can affect those with sensitive skin. Because clean clothes should sooth, never itch.

Endorsed by Allergy UK this special program removes selected allergens and bacteria from the wash taking care of both your clothes and your family.

Say goodbye to those strange laundry smells. This high temperature wash will kill bacteria and leave you drum smelling fresh and looking clean

Too much foam in the washing machine can prevent the clothes from getting a proper clean, the Foam Protection system makes sure those bubbles don't become an issue.

Allows the washing machine to keep you informed of everything that is going on, a quick way to check your settings and always be aware of how long each load has left.

Forget about guessing how much detergent you need or whether the machine is too full, Sharp does that for you. The Load and Dosage Sensor calculates the wash load and automatically adjusts the time and recommends required detergent.
