SHARP
Be Original.

A special programme that when used will rid the room of allergens like dust and pollen for those of a more sensitive nature.

The display on Sharp air purifiers show detailed information about the level of pollution and humidity in the room.

Sharp air purifiers have a higher than average air flow meaning they clean your air quickly and efficiently.

Due to the low sound levels in combination with a display that can be switched off, Sharp air purifiers are perfect for use in the bedroom, which provides clean air throughout the night while letting you sleep peacefully.

Sharp's smart, patented system helps remove bad odours, allergens, bacteria, 99% of viruses and even dust mites in the air to penetrate the whole room including behind furniture and make sure your house always has a breath of fresh air.

By accurately measuring humidity, dust, smell and temperature in a room Sharp air purifiers keep the air clean by adjusting automatically.
