

Air Purifier

# KC-G40EU-H

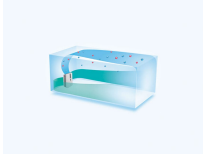

## Highligths

- An unique combination of air treatment technologies. Triple filtration system with Plasmacluster and Coanda effect Air Flow.
- High Density of air-purifying Plasmacluster ions (25 000 ions / cm<sup>3</sup>). The higher the PCI density is, the more effective PCI has.
- Plasmacluster Ion Spot mode
- Auto Louver for Clean and Efficient Air Circulation (Front & Top)
- Max airflow capacity without humidifying 240 m<sup>3</sup>/h and Humidification capacity 400 ml/h
- Quiet operation (19dB(A))
- Pre-Filter + HEPA/Deodorizing/Humidifying filters- Up to 10 years usage after opening.
- Dust (Sensor detection sensitivity)/Humidity/
- AUTO Mode: INTELLIGENT mode/Plasmacluster ion SPOT/Clean Air Humidify; Fan Speed (5) incl. AUTO & Pollen; Child lock; ON/OFF Timer

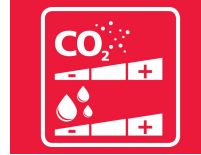

**SHARP**  
Be Original.

Temperature/ Light sensors

- PM2.5 display; Cleanless /Humidity/Temperature/ Timer Monitor, Light indication: Plasmacluster/Patrolling/Dust Humidity; Display level: Wattage/Temperature/Humidity; Humidifying filter clean

A special programme that when used will rid the room of allergens like dust and pollen for those of a more sensitive nature.

The display on Sharp air purifiers show detailed information about the level of pollution and humidity in the room.

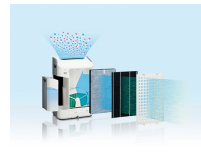

Sharp air purifiers have a higher than average air flow meaning they clean your air quickly and efficiently.

Due to the low sound levels in combination with a display that can be switched off, Sharp air purifiers are perfect for use in the bedroom, which provides clean air throughout the night while letting you sleep peacefully.

By accurately measuring humidity, dust, smell and temperature in a room Sharp air purifiers keep the air clean by adjusting automatically.

Sharp uses ions, that seek out and remove particles from the air, and an industry standard filter, good enough to be used in hospitals, to get the air in your home twice as clean as it would be otherwise.

## Key Features

Colour	Charcoal gray
Floor space	28
Applicable floor space (without humidifying)	28
Inverter operation	Yes
Air purification system	High-density PCI generator and fan
Humidifying (mist) function	Yes
Max airflow capacity without humidifying	240
Plasmacluster ion modes	Yes
Fan speeds	6 (Max / Med / Low, Sleep, Pollen, Auto)
Adjustable louvres	Yes
Timer	Yes
Noise level in cleaning mode (high / med / low)	46 / 41 / 19

## Other features

Child Lock	Yes
Dust level indicator	Yes
Light	Yes
Motion	Yes
Clean Ion shower	Yes

Spot (PCI)	No
Pollen	Yes
Intelligent mode	No
Patrolling Function	Yes
Automatic operation based on sensors	Yes
Start delay	Yes
Shot off delay	Yes
Display	Yes
Clean sign indicator	Yes
Display ON/OFF button	Yes
Plasmacluster indicator light	Yes
Water tank indicator	Yes
Dust monitor - Other Features	Yes
Pre-filter	Yes
Deodorization	Yes
Humidifier's filter	Yes
True HEPA filter	Yes
Filter life: HEPA, Active Carbon filter	Up to 10 years
Humidifier's filter life	Up to 10 years
Voltage / Frequency	220-240 V / 50/60 Hz

Standby power (W) 1.2

## Dimensions and Weight

Measures (W x D x H) 345 x 262 x 631

Weight 9.2

Humidifying function Yes

Max humidifying capacity 400

Tank capacity 2.5

## European Article Number

EAN Code 4974019934945

## Filters

Type Air Purifiers / humidifiers

Application Small room

## Sensors

Odor No

Dust Yes

Temperature Yes

Humidity Yes

Sensitive adjustment Yes

PM 2.5 filtration Yes
