- E Energy Efficiency
- Integrated 60cm
- Quick 30'
- Active Drying
- 12 L Water Consumption

Program your dishwasher so that it starts at a time that suits you.

For those times when you only have half a load but need it done the Eco Wash allows you to select either the top or bottom half of the machine to be cleaned.

When time is of the essence this program does the dishes in 50 minutes at 60°c.

When you have to fit every dish, glass, fork and pot into one load these machines can cater to even the largest of families or dinner parties.

An anti-bacterial system added to the filter kills 99% of bacteria in the wash. Take that germs.

Sharp puts safety first. If there is a disruption to the water flow these safety measures are designed to prevent damage to your home
