SHARP
Be Original.

- Convenient adjustment of the telescopic tube – 7 levels to extend the reach and make cleaning comfortable
- Vertical parking position - ergonomic design
- Reliable inverter motor Various operating modes: carpet, hard floor, max mode

Different needs require different options of cleaning. The latest generation of lithium-ion batteries 24V and advanced brushless motor give you up to 60* minutes of cleaning time in normal mode, and 14 minutes in turbo mode, before you need to recharge.

Conveniently vacuum upholstered furniture in your home. Thanks to a special brush, you can easily get rid of dust and pet hair from sofas and upholstered chairs. The brush will also prove useful for cleaning car seats or the cushions of garden furniture.

The brushless motor guarantees a quiet operation of the device. Owing to its design, it is extremely durable and reliable. Regardless of the surface that needs to be cleaned, vacuum cleaners with an inverter motor have high suction power and are very efficient.

High quality 24V lithium-ion batteries Easy of battery exchange Possibility of extension operation time up to 120 min with additional battery (sold separately by authorised service partner).

You can easily adjust the length of the tube to your height and set it at one of the seven levels of adjustment from 890 to 1100 mm. You can also set the length of the tube to thoroughly clean all hard-to-reach places. Easy cleaning corners under the ceiling with the telescopic tube with the click-type mechanism the device and accessories are firmly connected when in use.-

The vacuum cleaner does not need a stand and will remain upright wherever you leave it. You don't need to bend down to grab it every time you want to take a break from cleaning. The standing position also makes it easier to store the vacuum cleaner in a wardrobe or a closet. If you prefer, you can hang the device on a special wall-mounted holder.
