- AnimalJet motorised turbo-brush with LED lighting

SHARP
Be Original.

- Vertical parking position - ergonomic design
- 4-stage filtration that traps 99.5% of dust, pollen and bacteria
- Reliable inverter motor Various operating modes: carpet, hard floor, max mode

Different needs require different options of cleaning. The latest generation of lithium-ion batteries 24V and advanced brushless motor give you up to 60* minutes of cleaning time in normal mode, and 14 minutes in turbo mode, before you need to recharge.

The brushless motor guarantees a quiet operation of the device. Owing to its design, it is extremely durable and reliable. Regardless of the surface that needs to be cleaned, vacuum cleaners with an inverter motor have high suction power and are very efficient.

High quality 24V lithium-ion batteries Easy of battery exchange Possibility of extension operation time up to 120 min with additional battery (sold separately by authorised service partner).

The vacuum cleaner does not need a stand and will remain upright wherever you leave it. You don't need to bend down to grab it every time you want to take a break from cleaning. The standing position also makes it easier to store the vacuum cleaner in a wardrobe or a closet. If you prefer, you can hang the device on a special wall-mounted holder.

Animal Set A practical set of brushes will allow you to easily remove hair and pet hair from all surfaces, for instance from sofas. You can also use the spiked brush for the regular grooming of your pets to gently remove any loose hair during the shedding period.

Thanks to the wireless technology of the Sharp vacuum cleaner, you can easily vacuum hard floors, carpets, stairs and corners under the ceiling, as well as upholstered furniture. Pet owners will particularly appreciate a set of practical brushes for removing animal hair.
