SHARP
Be Original.

Keep your children safe from accidentally using the microwave with the easy to set up Child Lock.

Never run out of fridge space again. The Adapti-Zone allows you to assign a freezer compartment to become a refrigerator section to give you that all important extra cooling room.

By using independent circulation systems for the freezer and fridge frost is prevented, as are odours from one section to the next.

When nothing but shiny will do, our anti-fingerprint coating helps keep your oven looking good as new.

If your fridge door is left open too long it will let you know, saving your food and your energy bills.

This advanced air flow distribution circulates the cold air through the whole fridge meaning that no food is exposed to direct cold air which can dry food out.
