Built-in Refrigerators

Premium Features
summary

AdvancedNoFrost
Independent circulation systems for freezer and fridge preventing frost and odour mixing

GentleAirFlow
Advanced air distribution control helps prevent food from drying

OptiMoist
Allows adjustment of humidity levels to help preserve fruit and vegetables

Fruit&Veg Zone
Ideal for storing fruit and vegetables keeping them fresh and crisp

ZeroDegree Zone
Creates the optimum conditions for storing fresh meat and fish for longer

OdourNeutral
Independent circulation systems for freezer and fridge preventing frost and odour mixing

AdaptiLift
Easily adjust the position of the door trays to suit your needs

AdaptiShelf
Adjust the shelf of your fridge easily to use space efficiently

SpaceSaverDoor

The fridge can go right up the wall, no additional space needed

Dual Control

Electronic control where you can adjust the temperature ofyour fridge and freezer compartments independently. Consumercan control the fridge and freezer compartments separately

AdaptiFreezer

Our technology ensures your freezer will always keep working whatever the outside temperature - even if it drops as low as -15°C

NanoFrost

More effi cient cooling performance, through reducing theneed to defrost. Resulting in greater storage capacity

TwinLED

Brighter compartment and better food visibility

AntiFingerprint

Helps prevents fi ngermarks, keeping your fridge looking shiny and new

GlassDoor

The attractive glass design fi ts perfectly in today's modern kitchen. The high-quality, safety glass fronts are treatedto be super tough
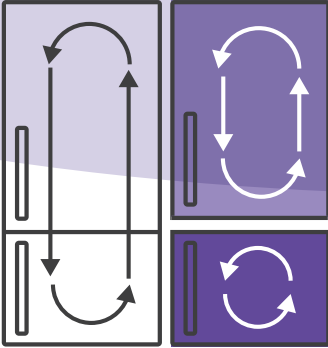

Longer Freshness

 AdvancedNoFrost

 OdourNeutral

Two independent and dedicated cooling systems maximizes cooling and freezing results, ensuring frost free compartments whilst also stopping any mixing of odors.

 GentleAirFlow

Maintains the fresh texture and taste of food by preventing any humidity loss in the fridge compartment.

ZeroDegree Zone

Creates the optimum conditions for
storing fresh meat and fish for longer.

Fruit&Veg Zone

Ideal for storing fruit and vegetables
keeping them fresh and crisp.

e-Filter technology helps to remove ethylene gas (a bioproduct released
naturally from fresh foods) and unpleasant odors from the crisper.
In this way, food stays fresh for a longer time.

Longer Freshness

AdaptiFresh

AdaptiMoist

OptiMoist

Humidity Control Technologies

With the humidity control technologies, adjustment of humidity levels to help preserve fruit and vegetables.

Only Vegetable Mode

Fruit and Vegetable Mode

Only Fruit Mode

Flexibility

NanoFrost

Thanks to the usage of wrap around evaporator;

✓ More Efficient Cooling.
✓ Less Manual Defrost Requirement.
✓ Higher and More Flexible Storage Capacity.

Water Dispenser

Continuously 2l iters chilled water availability and hygienic use thanks to removable tank.

AdaptiFreezer

AdaptiFreezer is even if at super low (-15°C) ambient temperatures, freezer section of the refrigerator maintain working to keep the frozen foods frozen. (-18°C)

Dual Control

Temperature of the freezer and fridge compartments can be adjusted independentley.
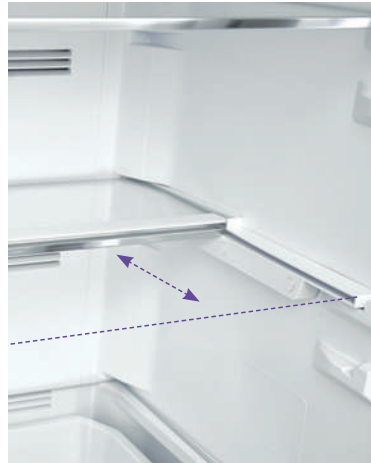

Flexibility

AdaptiLift

Adjust the height of the door racks to create more space for larger items. Easy to change height even it's loaded.

AdaptiShelf

Slide and hide half the shelf to create more space for large and extremely sized items. Easy to managing space in fridge compartment.

SpaceSaverDoor

For conventional door mechanism, additional space for opened door is required. But, thanks to space saver door, the fridges can go right up the wall, no additional space needed.

AntiFingerPrint

High Quality door material, helps prevents fingermarks, keeping your fridge looking shiny and new. (Only applicable for inox models)

TwinLED

Brighter compartment and better food visibility. Both sides installed LED evenly to light interior

GlassDoor

Pretty glass door design, with stylish appearance and more resistance against scratches compared to metal sheet.

Built-in Ovens
Series I - II

Premium Features
Summary

EasyToClean Enamel
The smooth enamel interior helps make cleaning your oven easier

Catalytic Cleaning
It is easy to clean and time saving: the catalytic liners work when the oven is heated to 220ºC and residue is oxidised

Pyrolytic Cleaning
Our Pyrolytic ovens mean no more scrubbing, keeping your oven sparkling clean. Self-cleaning process is set at 480°C that turns all residue to ash which can be easily removable from the oven

ActiveCool
ActiveCool technology keeps the door temperature safe evenwhen self-cleaning. The 4 glass panel door ensures the outersurface remains cool, even at pyrolytic temperatures (480°C)

VapClean
By softening the oven dirt with steam, the VapClean function helps take the effort out of cleaning, gently steaming the inside of your oven

AirCurtain
When oven door is opened during cooking, it creates an air stream between control panel and oven bottom panel.

Remove&Wash

Taking the hassle out of keeping your oven clean, our removable inner glass oven door makes it incredibly easy to wash even in a dishwasher

Family Size Cavity

The bigger the better. The large cavity makes it suitable to cook for a large family

150 Autocooking Programs

Created by pro-chefs, 150 built in programs create the ultimate oven to dish experience. We have created this to make your life easier; simply press a program and let the oven do the rest: set time, temperature, and oven function

50 Autocooking Programs

Created by pro-chefs, 50 built in programs create the ultimate oven to dish experience. We have created this to make your life easier; simply press a program and let the oven do the rest: set time, temperature, and oven function

Love2Cook

While containing 150 autocooking programs, colourful 4.3" knob control TFT LCD display with Wi-Fi connectivity enabling remote control and capable of working with Innit

RoastPro Meat Probe

perfection temperature of your meat and make sure it is cooked to you like. Simply by using the sensor you can control the core The ultimate cooking control gets your meat just the way

AirStream

There are 2 function fans in the oven cavity which operate to create hot air stream and distribute the heat evenly through the cavity.

RoastPro Turnspit

RoastPro Turnspit for all round cooking perfection.It delivers perfectly cooked whole chicken every single time

SuperQuiet

A special cooking function running at a 35 dB noise level.

Power Boost

Getting your food off to a flying start. It reduces the preheating duration by 50%, helping you to save time and energy

Telescopic Rails

Enables you to take heavy trays out safely and effortlessly from the hot oven

DoorSwitch

It provides better vision by turning lighting on when the oven door is open and energy saving by turning off lighting when it is closed and inactive

SteamAssistedCooking

Manual or auto-added moisture pouring water/steam from push&pull water tank elevating the cooking experience to another level

VapClean Plus

By softening the oven dirt with steam, the VapClean Plus function helps take the effort out of cleaning, gently steaming the inside of your oven

SoftClosingDoor

The oven door closes by itself gently and quietly thanks to a special hinge

EasyToClean Enamel

EasyToClean Enamel: the oven cavity is covered with a smooth and strong enamel.

Pyrolytic Cleaning

Pyrolytic Cleaning: the oven runs for 1,5 hours at 480°C to turn all residue to ash.

Catalytic Cleaning

Catalytic Cleaning: the catalytic liners work when the oven is heated to 220°C and residue is oxidized.

VapClean Plus

Steam cleaning programme to soften the oven dirt. The oven generates steam with water from the tank.

VapClean

VapClean: the oven runs at 90-100°C for 20 minutes while there is water boiling in a tray to soften the oven dirt.

ActiveCool

The 4 glass panel door and a forced cooling system ensure the outer surface remains cool, even at pyrolytic temperatures (480°C).

Remove&Wash

Remove&Wash: It allows you to remove and wash the inner oven door glass.

Family Size Cavity

Suitable for big families where 78lt cavity enables cooking bigger portions or several different dishes at different levels.

SoftClosingDoor

The oven door is closed slowly by itself thanks to a special hinge, when it is released just before closed position.

Telescopic Rails

Standard Telescopic Rails
Lets the ¾ of the tray pulled out.

Full Telescopic Rails
Lets the tray completely pulled out.

Love2Cook

4.3" colourful touch control TFT LCD display
Wi-Fi Connected Smart Oven
Remote Control
Capable of working with Innit
150 Autocooking Programs
Time clock and date
5 levels of display brightness
3 levels of buzzer tone
11 language options

Autocooking Programs

Created by pro-chefs, depending on the control panel, from 12 to 50 and 150 autocooking programs were created for the ultimate oven to dish experience. Select your dish between many types of food (meat, fish, bread, cakes…) and let the oven do the rest automatically: set the appropriate duration, temperature and oven function.
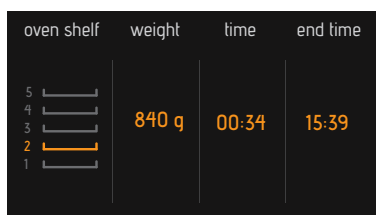

RoastPro Meat Probe

RoastPro Meat Probe: cooking stops automatically when the desired core temperature is reached.

PowerBoost

When the boost function is activated, it reduces the preheating duration by 50%.

DoorSwitch

Oven light is on/off by the help of a mechanical-electrical switch triggered by oven door opening/closing.

It also controls the remote control of the smart built-in ovens.

AirStream Technology

Two Fan Structure There are 2 function fans in the oven cavity which operate to create hot air stream and distribute the heat evenly through the cavity.

Cavity with air canals Thanks to these canals/ holes on the sides of the cavity a horizontal air stream is created.

AirCurtain Technology

When oven door is opened during cooking, oven creates an airflow from control panel to the oven bottom panel, preventing the hot air to reach face of the user.

SteamAddedCooking

Manual or auto-added moisture pouring water/steam from push&pull water tank elevating the cooking experience to another level.

Premium Pyrolytic Control Panels

Full Touch Pyro Timer

Pyrolytic cleaning with two levels for 1:00 hour and 1:30 hours can be used.
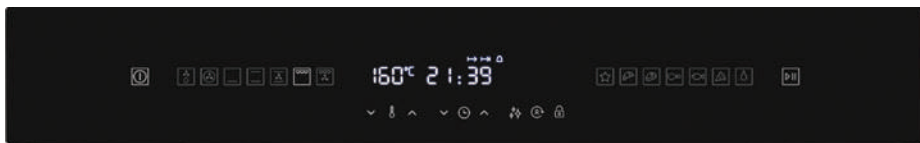

Pyrolytic cleaning with three levels for 1:00 hour, 1:15 hours and 1:30 hours can be used.

SteamBase Oven

Key Features

✓ 65L & 75L oven cavity,

✓ A special enamel coating for this feature,

✓ Easily activated with touch steam icon on the oven knob.

✓ Can be applied to pyrolytic self-cleaning ovens.

✓ Available with all control panels.

❶ Pour the water into the chamber

❷ Select any function with Steam Icon

SteamBase+ Oven

Key Features

✓ 65L & 75L oven cavities,

✓ Available with FD Digital and FD Visio Touch control panel

✓ A special enamel coating for this feature,

✓ Easily activated with touch steam icon on the oven control panel.

✓ Control the waterflow's timing and amount whenever you want to!

❶ Pour the water inside the water tank

❸ Water to reach to bottom of the cavity

❷ Activate the steam icon by touching
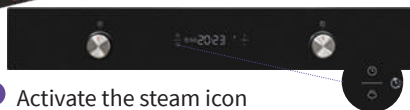

Sharp launches a groundbreaking, multifunctional smart oven series that is set to work with world-first cooking platform, Innit.

Be inspired and get creative in the kitchen with an Sharp's Love2Cook KS-76S50 Smart Oven, which can bring out the chef in you, whatever your cooking ability. Promising to shake up dinner routines, and raise the bar for home cooking.

Cook Smart.

Innit sends preset cooking instructions straight to your Sharp Smart Built-in Oven. Get the cooking guidance you need whether you are an amateur or aspiring chef. Step-by-step videos and easy how-tos help you go from inspiration to cooking with confidence.

Connect.

Effortlessly connect your Sharp Smart Built-In Oven to Innit via Sharp Home Application. After establishing the Wi-Fi connection between your smart oven and the application, you can easily use the remote control feature to have remarkable cooking experiences.

Get Inspired.

Get meal recommendations by creating your Food Profile according to your likes, dislikes, health or allergy concerns and cook times customized for your Sharp Smart Built-in Oven.

Built-in Hobs

Premium Features
Summary

CookBridge

The ultimate in versatility CookBridge provides flexibility for pans of all shapes and sizes. By simply combining two induction zones you can create an extra large zone for big pots and pans

Stop&Go

Freeze time when you need to. Our Stop&Go technology enables you to pause and take that all important call when cooking, then press again to continue

AutoHeatControl

Simple yet effective, Sharp puts the most common cooking tasks at your fingertips, allowing you to boil, fry, melt chocolate and keep your food warm at the touch of a button

EasyToClean Surface

The smooth glass ceramic surface is especially easy to clean

SliderTouch

Intuitive sliding controls allow you to select the power level easily

TimerFunction

When the hob is switched on, an independant timer (1 to 99 minutes) can be programmed for every cooking zone so that they switch off automatically. When the hob is switched off, you also have the possibility to set a minute minder

InductionBoost

Maximum power in seconds for a speed-up heating and a cooking time reduction

Child Lock

Young minds are inquisitive but there's no need to worry with this safety feature that keeps wandering fingers at bay. When it is activated, no control can be changed

Hot surface indicator

After switching off the cooking zone, an "H" will be displayed until the assigned cooking zone temperature is in an uncritical level. It reminds you not to touch a hot cooking zone. You can also use the residual heat for defrosting or maintaining a dish warm

Safety switch off function

If you forget to switch off the hob, it's not a problem. Every cooking zone will be switched off automatically after a define maximum operation time if the heat setting is not modified

Extended2xZone

This extendable cooking zone allows you flexibility to cook with pans of different size perfectly

2xZone

Small to medium size variation, our 2xZone allows true flexibility when it comes to selecting the perfect size for your pans

3xZone

Small to medium size variation, our 3xZone allows true flexibility when it comes to selecting the perfect size for your pans

CookBridge
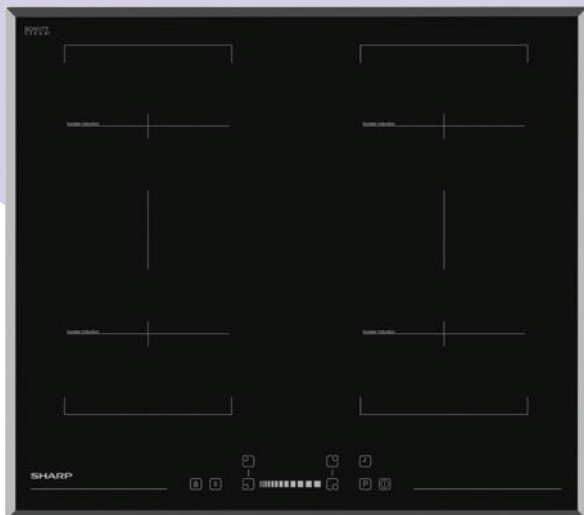

The CookBridge enables you 2 options: to cook 2 dishes seperately in different zones or to turn the 2 cooking zones into 1 large zone which automatically adapts to the size and positions of the utensil.

SliderTouch
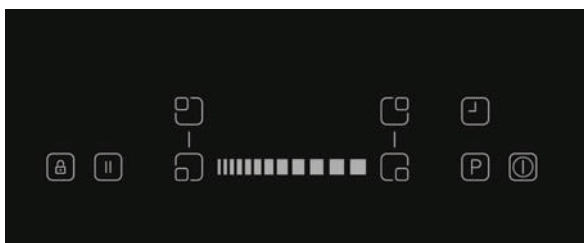

SliderTouch controls allow you direct access to your desired cooking level for each heating zone seperately by a simple touch of a finger: temperature is adjusted instantly.

InductionBoost

InductionBoost increases the power of the heating zone to provide extreme heat intensity to the pot.

AutoHeatControl

Convenience
pre-setting right power, avoiding burning, standardized cooking experience
+ Time Saving

Frying

Fixes the cooking zone in frying temperature (160^0C)

Keep Warm

Keeps the cooking zone in 50^0C

Boiling

Fixes the cooking zone in boiling temperature (100^0C)

Chocolate Melting

Keeps the cooking zone in 40^0C
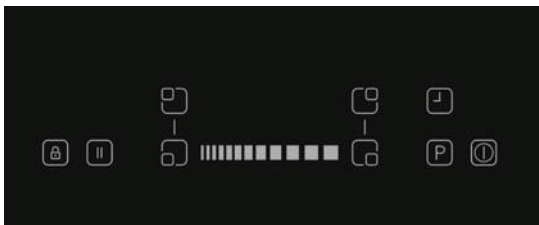

Stop&Go

When you press Stop&Go button, the power of all activated heaters is reduced to a keep warm setting. When you touch the button again, the heaters automatically return to the previously selected level.

Separete Timer for Each Zone

When the hob is switched on, an independant timer (1 to 99 minutes) can be programmed for every cooking zone so that they switch off automatically. When the hob is switched off, you also have the possibility to set a minute minder.
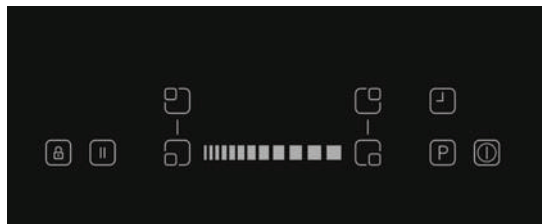

Schott Glass

The whole Sharp hob range is made of Schott CERAN glass ceramic. «Made in Germany» quality.

Built-in Dishwashers

Premium Features
Summary

AutoDoor
This technology opens the door at the end of the washcycle to assist the drying process, saving energy.

DualProWash
Helps tackle the dirtiest of pans in the bottom, while taking care of your delicate glasses in the top.

EcoBox
This green innovation recycles the final rinsing water to use in the next wash, reducing water consumption.

EcoWash
Our machines come as standard with half-load Eco-Wash technology, helping to save time, energy and money.

Express 50"
Delivering top washing quality in just 50',
this program is the ultimate in efficient dishwashing.

Easy Tray
This ingenious little tray allows you to load and unload all your cutlery while also saving space in the machine.

Hygiene

A special filter and a range of hygiene programs help Sharp dishwashers fight harmful bacteria.

IntelliWash

Intelligent sensor technology measures the soil level to auto-optimize cleaning performance.

QuickWash

Cleaning dishes in a 4 place setting capacity dishwasher in 14 minutes.

SteamWash

Making light work of stubborn dishes, Sharp SteamWash cleans baked-on food in a flash.

SuperQuiet

Whisper quiet, this dishwasher can wash in near silence with only 39 dBA sound level.

AquaStop

The flood busting Aquastop hose shuts off the water supply in the event of a leak, limiting damage to your home.

Foldable Lower Racks

Pots and pans can be washed with ease thanks to these foldable lower rack wires.

Foldable Upper & Lower

No need to struggle to get everything in, our machines have adjustable racks to fi t in all your dishes, glasses, pots and pans.

10yr Motor Warranty

Our Advanced Inverter Motor delivers superior efficiency and quiter operation, all backed by a 10yr parts warranty.

EcoWash

Provides the independent usage of upper and lower baskets within load options, saves energy and decrease water consumption.

ExtraDry

Provides extra drying with turbo fan for 10-20 minutes (depends on the selected program).

ExtraRinse

Adds an extra rinse step to achieve more hygienic washing. Program duration is increased 5-10 minutes and water consumption is increased 3-4 liter according to the selected program.

ExtraSilent

With less motor speed and more washing time it provides extra silent wash.

ExtraFast

Decreases program duration while increasing water temperature and pressure to ensure higher washing quality in a shorter duration.

ExtraHygiene

Increases water temperature at final rinse step in order to eliminate bacteria and provides maximum hygiene.

EnergySave

A technology that makes the drying process more efficient. Auto Door opens the door of the dishwasher during the drying process automatically and by this way the hot air goes out of the dishwasher by itself.

Hygiene Program

Our special Hygiene programme ensures maximum hygiene with high temperature washing. The special hygiene programme that eliminates **99.9999%** of all bacteria is tested and approved by International German Test Institute of VDE. For further protection, all Sharp dishwashers come fitted as standard with an advanced Antibacterial Filter, helping to protect the family.

AntiBacterial Filter

Red antibacterial filter helps to provide hygiene in order to protect family. Special treatment helps reduce bacterial growth, odours and mould in the filter.

SteamWash Program

In the most appropriate moment the heater increases the water temperature up to around 70°C. Steam is created inside and softens up the soil from pots and pans to fragile glasses for about ten minutes. Dishes are gently sanitized at the same time. After this treatment the dirt is quickly and easily removed. High temperature and directly applied steam ensure perfect hygiene and gentle cleaning for dishes. Steam wash is more hygienic, healthier and clean perfectly every kind of soil.
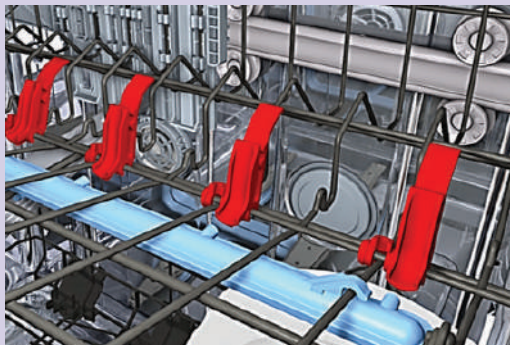

AquaGlide

AquaGlide provides deep precision multidirectional targeted cleaning with pin-point accuracy. The spray can be directed upward for effective wash of glasses and baby bottles or downward to achieve extra strength wash in the dishes below.
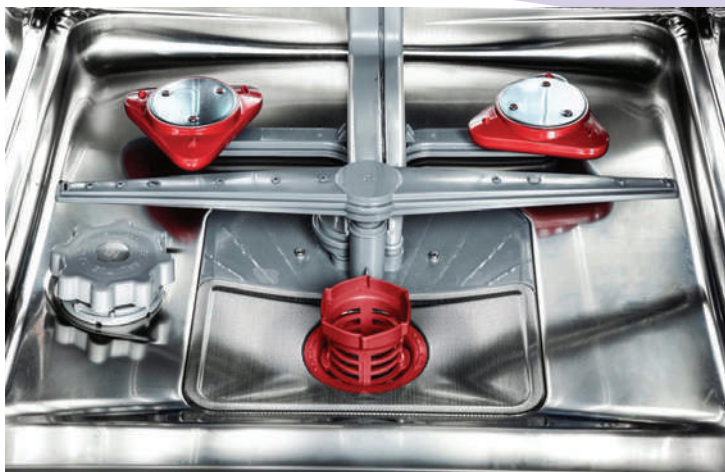

WaterBlade

WaterBlade technology delivers a truly immersive powerful clean with two additional spray arms that can work both together with the main spray arm or individually.

Advanced Inverter Motor

Superior efficiency, reduced noise levels
and a longer lifetime backed by a
10 year motor warranty
are all delivered with our
Advanced Inverter Motor
making doing the laundry a
pleasure rather than a chore.
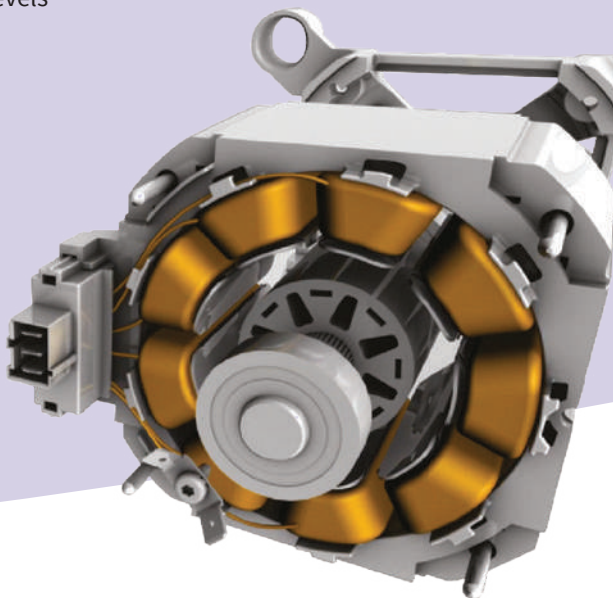

Lower energy
consumption

Increased

consumption

10 year Warranty Conditions

✓ 10 year warranty on the Advanced Inverter Motor
✓ Customer warranty registration within 30 days of purchase
✓ Terms and conditions apply
✓ Claims due to customer misuse are excluded
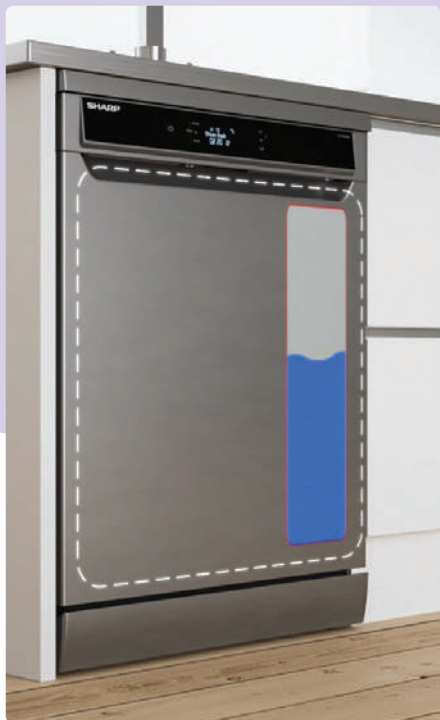

EcoBox

EcoBox technology delivers the Worlds Lowest Water Consumption for 14 place settings with just 5.4 liters of water use.

The working principle of EcoBox is based on getting the last clean cycle rinse water, filtering it to avoid any particles and saving it in an isolated box to use in the first cycle of the next wash.

AutoDoor

AutoDoor is a technology that increases drying efficiency by opening the door of the dishwasher at the end of the cycle to release hot air."
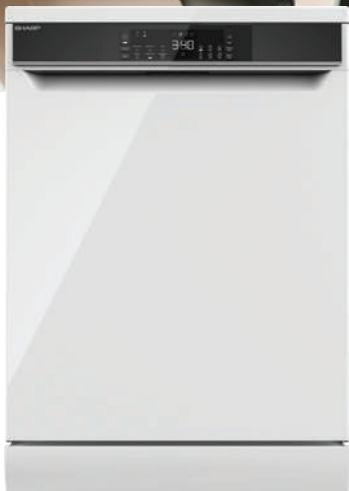

Dual Pro Wash

By using Advanced Inverter Motor technology on the circulation pump, Dual ProWash Dishwashers can tackle the dirtiest of pans in the bottom, whilst taking care of your delicate glasses in the top basket. Variable pump pressure helps to minimise noise levels, helping to maintain peace and quiet in the kitchen.

IntelliWash

IntelliWash uses smart technology to intelligently measure the levels of turbidity in the water, providing maximum performance by applying the optimum washing temperature and time according to the amount of soil.

Turbidity

Water Temperature

Program Time

Wash Performance

39dBA Sharp SuperQuiet
Dishwasher

Whisper-quiet, our Super Quiet dishwashers can operate at a barely audible 39dBA.
Circulation pump Advanced Inverter Motor technology, a specially designed cabinet and advanced sound insulation allow our dishwashers to perform without making a noise.

Drying Systems

2 different types of drying systems on dishwashers;

Active Drying

Better drying performance with the help of the big size and condensation channels places inside of the drying unit. It improves the drying efficiency up to %10 better than standard drying.

Turbo Drying

Best drying performance with the help of electrical fan motor at the end of the condensation unit. It helps the moist air to escape with the %18-19 better drying efficiency.

* The values above are the values obtained under laboratory conditions and with the same algorithm

AntiBacterial Filter
of your Sharp Dishwasher

Clean dishes and utensils are important to family health. Over time, bacteria can build up from previous cycles.

All SHARP dishwashers come fitted as standard with an advanced Antibacterial Filter, helping to protect the family and ensuring maximum hygiene. Antibacterial Filter effectively reduces bacterial growth on the filter (%99,9*).

Antibacterial Filter keeps your dishwasher clean and helps to reduce odours left behind from residues.
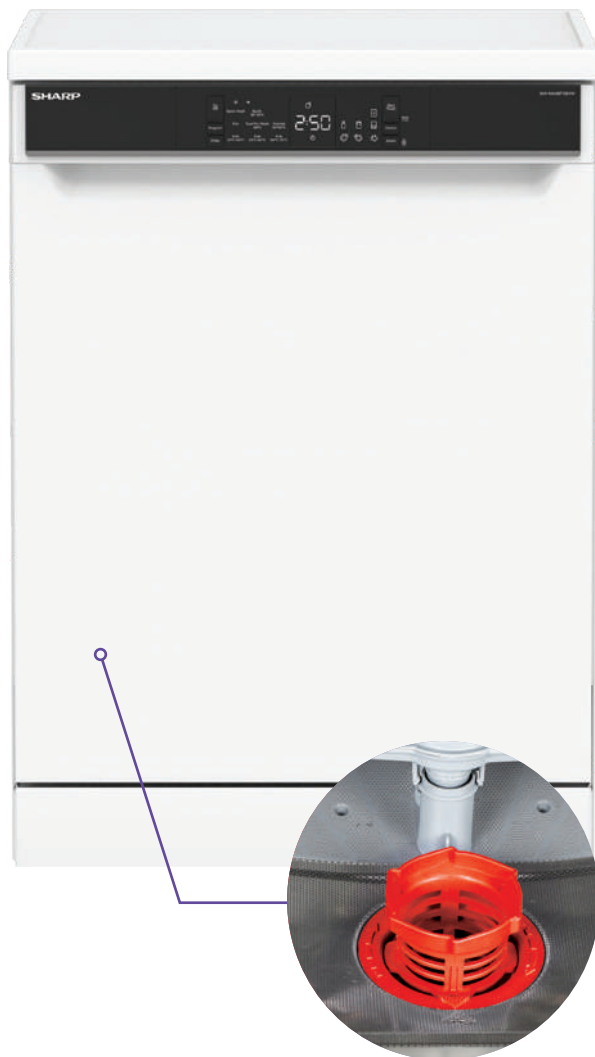

*According to accredited test laboratory report, filter eliminates the specific bacteria (Staphylococcus aureus, Escherichia co li).
Antibacterial filter contains biocidal active substance as zinc pyrithione (CAS No: 13463-41-7).

Built-in Washing Machines

Premium Features
Summary

ThermoJet
An eco-champion, ThermoJet by Sharp delivers ultra low energy and water use with fast washing times.

DoubleJet
Twin nozzle technology fires water and detergent to the center of the drum, decreasing energy and water use.

WaveCabinet
Special Wave design on the cabinet provides greater stability, lowering vibration and noise.

AquaBall
Standard across the Sharp range, AquaBall is a special valve mounted between the tub and drain pump which prevents detergent waste, significantly reducing laundry costs.

AllergySmart
Endorsed by Allergy UK, Allergy Smart program is designed to combat commonly found allergens and bacteria.

Aquastop
The flood busting Aquastop hose shuts off the water supply in the event of a leak, limiting damage to your home.

StainTypeSelection
By tackling up to 22 different types of common stains, this technology helps ensure perfect washing results.

BubbleDrum
The specially design drum pattern helps look after delicate clothes even at higher spin speeds.

Advanced Inverter Motor
Superior efficiency, reduced noise levels and a longer lifetime are all delivered with our Advanced Inverter Motor.

EcoLogic

Sharp machines come as standard with half-load Eco-Logic technology, helping to save time, energy and money.

NightProgram

Helping you get a good night sleep, this clever program delays the last spin by up to 10 hours.

Memories

Having found your ideal wash settings Memories lets you save it at the push of the button for the next time you need it.

39 dBA Most Silent Wash

Operating at near whisper quiet levels, this record breaking SuperQuiet dishwasher gets on with your dishes without making a noise about it.

AntiBacterial Material

Sharp helps to safeguard you & your family. Specially coated material on our washing machines is designed to offer protection from harmful bacteria.

Connectivity

Wifi connected SHARP Smart Washing Machines allow remote control operation and programmeme monitoring via a handy app.

IntelliDos

The Load and Dosage Sensor calculates the wash load and automatically adjusts the time and required detergent.

Drum Cleaning

Say goodbye to those strange laundry smells. This high temperature wash will kill bacteria and leave you drum smelling fresh and looking clean.

Eco Timer

Off peak energy tariffs make things cheaper to run. The Eco Timer lets you tell the machine exactly when you want it to be active saving you on energy bills.

Finish Time

Don't let the laundry dictate your day, set a time you want it to finish and the machine will start with that end time in mind, meaning it fi ts into your timetable, not the other way round.

Allergy Smart

Special Algortihm provides complete hygiene %99,9
Reduce common allergens and bacteria

Allergens

Awarded «Seal of Approval» by Allergy UK, which is a reputable foundation that had been established in order to support approximately 21 million allergy patients in England.

Advanced Inverter Motor

Superior efficiency, reduced noise levels and a longer lifetime backed by a **10 year motor warranty** are all delivered with our **Advanced Inverter Motor** making doing the laundry a pleasure rather than a chore.
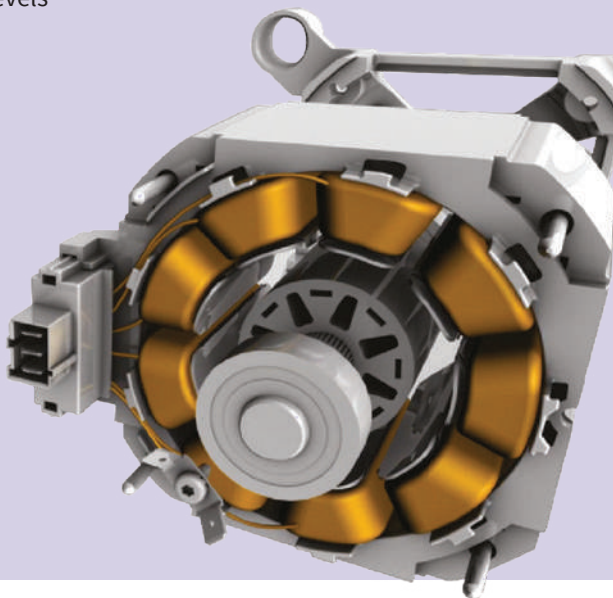

✓ Customer warranty registration within 30 days of purchase

✓ Terms and conditions apply

Lower energy consumption

Increased reliability

Reduced noise

Longer liftetime

Lower water consumption

Eco Logic

Available on all Sharp Washing Machines, a sophisticated eco-logic system detects when the machine is half-loaded, so energy consumption can be automatically reduced by up to 50% and water consumption and programme durations are decreased, saving time, energy and money.

Aquaball

Standard across the Sharp range, Aquaball is a special valve mounted between the tub and drain pump which prevents detergent waste, significantly reducing laundry costs.

Without it about **30%** of powder goes directly to pump.

With Aquaball installed almost **100%** of powder remains in tub.

Steam Function
of your Sharp Washing Machine

Hygienic!

Refresh!

Gentle Cleaning!

Steam generation with existing heater

For which programs can we use Steam option?

✓ If the model has, Steam option can be active in all programs.

What is the algorithm of Steam option?

✓ There is a steam session at the end of program.

✓ After Steam selection, there is 26 minutes program duration increasing.

In this process, steam is obtained intermittently by activating the heater. Heater is active for the 4.5 minutes.

✓ There is no change in the washing temperature. There is only temperature increasing at the end of the program.

Applicable for T Series washing machine models

How can we obtain more hygienic laundry with Steam?

✓ Steam offers more hygienic washing and reduction of bacteria with the high temperature. Usage of Steam with Allergy Smart program will increase this hygienic effect.

What's more with Steam?

✓ In addition to the being hygienic, Steam also provides easy ironing laundry. Moreover, it is refreshing.
