Drying Systems

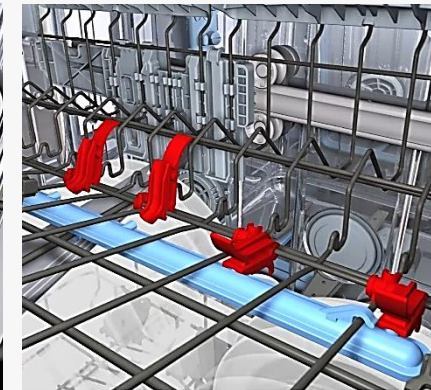

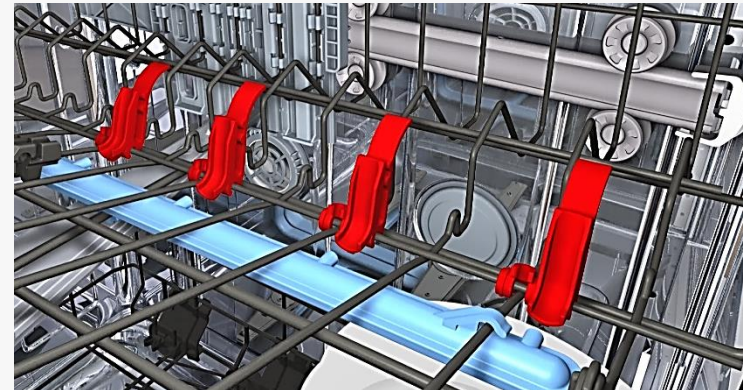

2 different types of drying systems on dishwashers;

1. Active Drying: Better drying performance with the help of the big size and condensation channels placed inside of the drying unit. It improves the drying efficiency up to %10 better than standard drying.

2. Turbo Drying: Best drying performance with the help of electrical fan motor at the end of the condensation unit. It helps the moist air to escape with the %18-19 better drying efficiency.

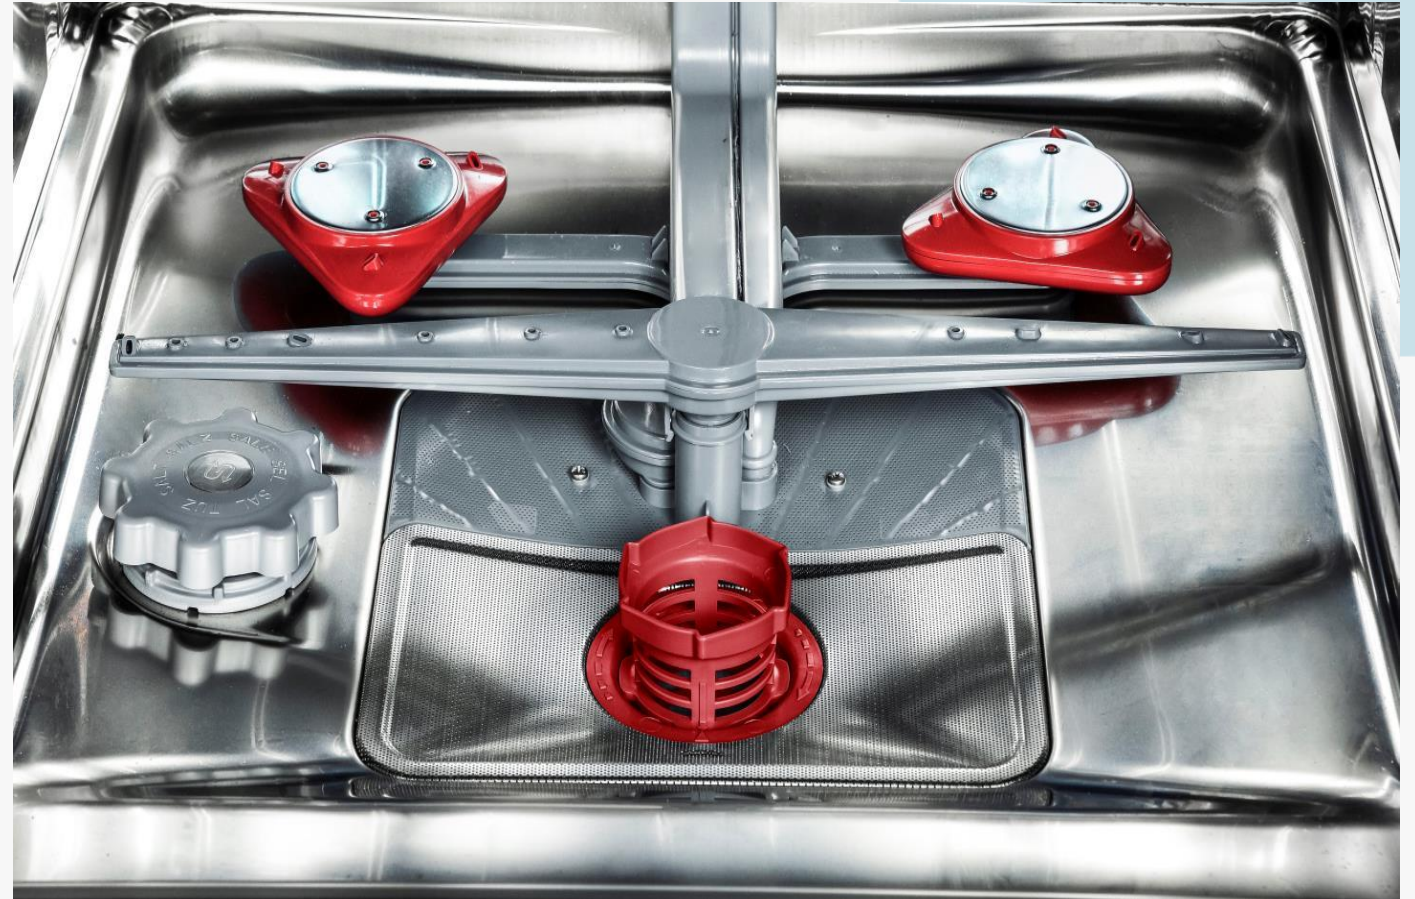

AquaGlide

AquaGlide provides deep precision multidirectional targeted cleaning with pin-point accuracy. The spray can be directed upward for effective wash of glasses and baby bottles or downward to achieve extra strength wash in the dishes below.

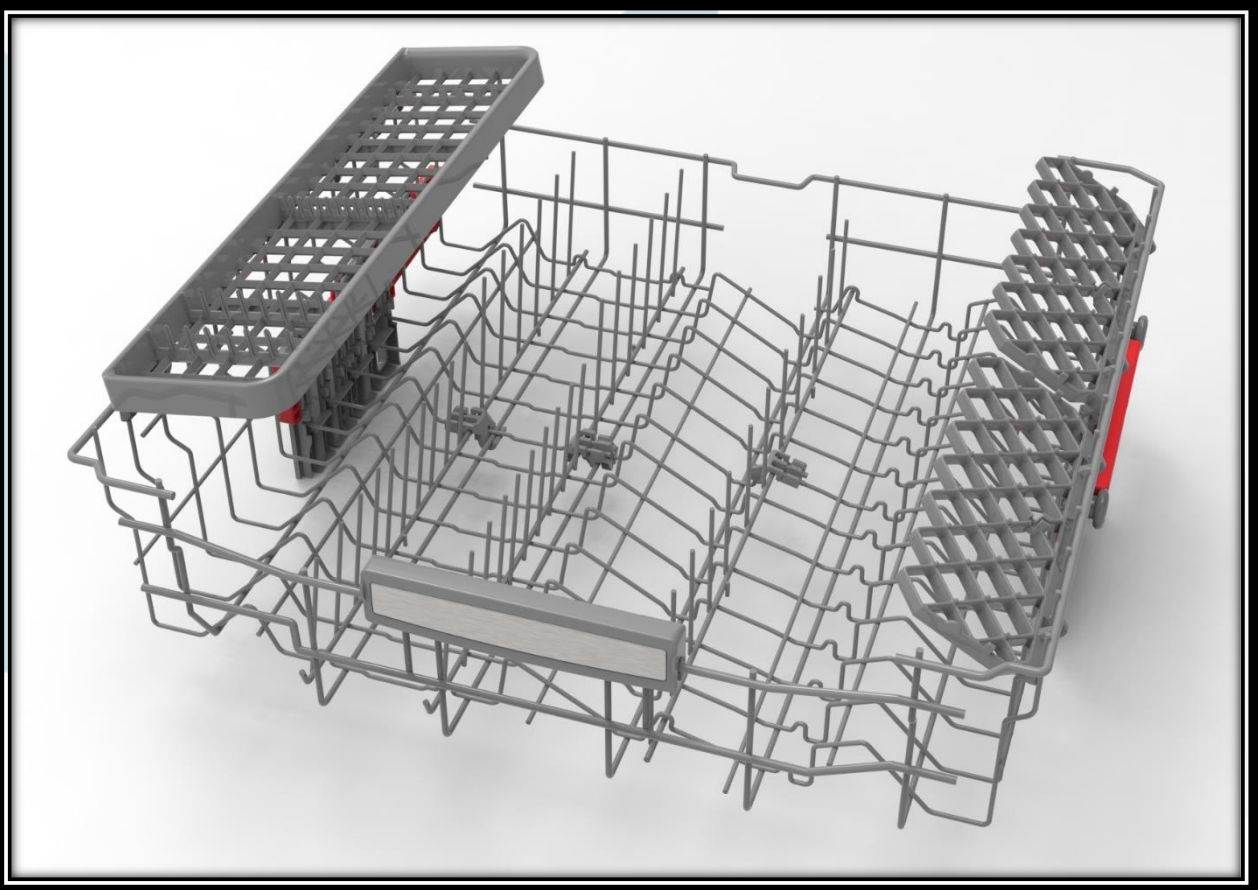

WaterBlade

WaterBlade technology delivers a truly immersive powerful clean with two additional spray arms that can work both together with the main spray arm or individually.

KnifeShelf

EcoBox

Ecobox technology delivers the Worlds Lowest Water Consumption for 14 place settings with just **5.4 liters** of water use.

The working principle of ECOBOX is based on getting the last clean cycle rinse water, filtering it to avoid any particles and saving it in an isolated box to use in the first cycle of the next wash.

AutoDoor

AutoDoor is a technology that increases drying efficiency by opening the door of the dishwasher at the end of the cycle to release hot air.

Quickwash Program

QuickWash program is one of the fastest programs; cleaning dishes in a **4 place setting** capacity dishwasher in **14 minutes**.

Quickwash Program

BRAND	PROGRAMME NAME	PROGRAMME DURATION
SHARP	QUICKWASH 14'	14'
GORENJE	QUICK WASH	20' (with speedwash 15')
BEKO	XPRESS 20'	20'
BOSCH	TURBOSPEED 20'	20'
SIEMENS	QUICK WASH	29'
HOOVER	RAPID 24'	24'
INDESIT	RAPID 25'	25'
SAMSUNG	QUICK 40 °C	28'
HOTPOINT	EXPRESS 30'	30'
ELECTROLUX	QUICKPLUS 60°	30'
MIELE	FAST 60 °C	30'

Express 50' Program

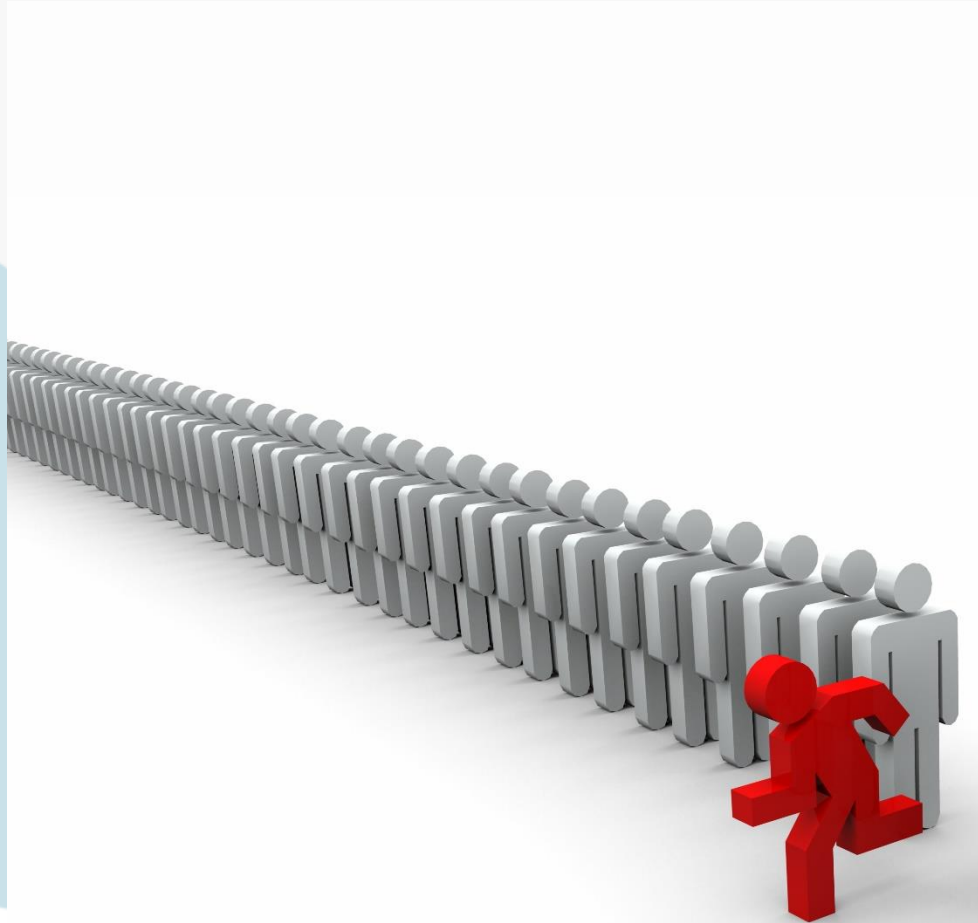

Sharp dishwashers can achieve A class washing performance with our **EXPRESS 50'** wash, performing a 65°C cycle in a best in class 50 minutes.

It is the first and only dishwasher that achieves A class wash performance according to EN50242 for standard soiled dishes only 50 minutes approved by VDE and LGA.

Express 50' Program

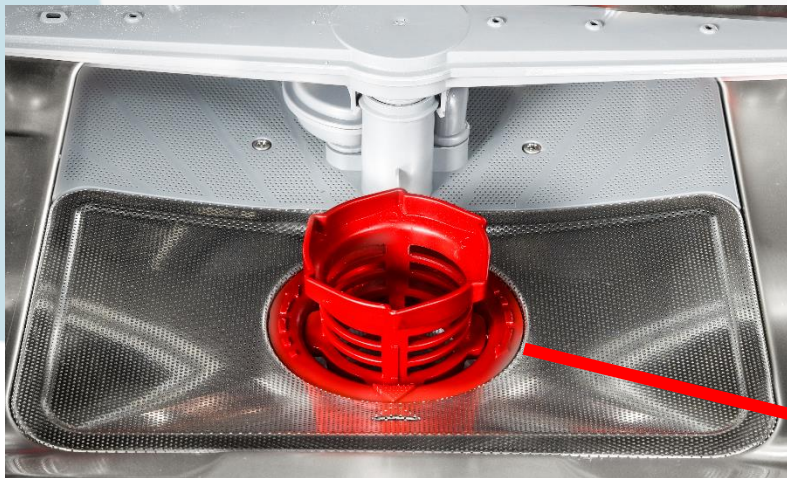

BRAND	PROGRAMME NAME	PROGRAMME DURATION	DECLARATION
SHARP	EXPRESS 50'	50'	A
BEKO	FAST 58' QUICK & CLEAN	58'	A
BOSCH	1 HOUR SHORT	60'	A
SIEMENS	QUICK WASH	60'	A
HOOVER	WASH 39'	39'	A
INDESIT	SMART SIXTY	60'	A
SAMSUNG	DAILY 55™ CYCLE	55'	A
MIELE	QUICKPOWERWASH	58'	A

Hygiene Program

- Our special Hygiene programme ensures maximum hygiene with high temperature washing. The special hygiene programme that eliminates 99.9999% of all bacteria is tested and approved by International German Test Institute of VDE. For further protection, all Sharp dishwashers come fitted as standard with an advanced Antibacterial Filter, helping to protect the family.

Antibacterial
Filter

Steam Wash Program

In the most appropriate moment the heater increases the water temperature up to around 70°C. Steam is created inside and softens up the soil from pots and pans to fragile glasses for about ten minutes. Dishes are gently sanitized at the same time. After this treatment the dirt is quickly and easily removed. High temperature and directly applied steam ensure perfect hygiene and gentle cleaning for dishes.

Steam wash is more hygienic, healthier and clean perfectly every kind of soil.

Advanced Inverter Motor

Using BLDC pump technology, our **Advanced Inverter Motor** delivers superior performance.

Variable pump pressure adds new and versatile ways of washing the dishes, whilst the brushless motor is built for increased longevity, all backed by a **10yr Motor Warranty ***

10yr Warranty Conditions

- 10 year warranty on the Advanced Inverter Motor
- Customer warranty registration within 30 days of purchase
- Terms and conditions apply
- Claims due to customer misuse are excluded

Dual ProWash Program

By using **Advanced Inverter Motor** technology on the circulation pump, Dual ProWash Dishwashers can tackle the dirtiest of pans in the bottom, whilst taking care of your delicate glasses in the top basket. Variable pump pressure helps to minimise noise levels, helping to maintain peace and quiet in the kitchen.

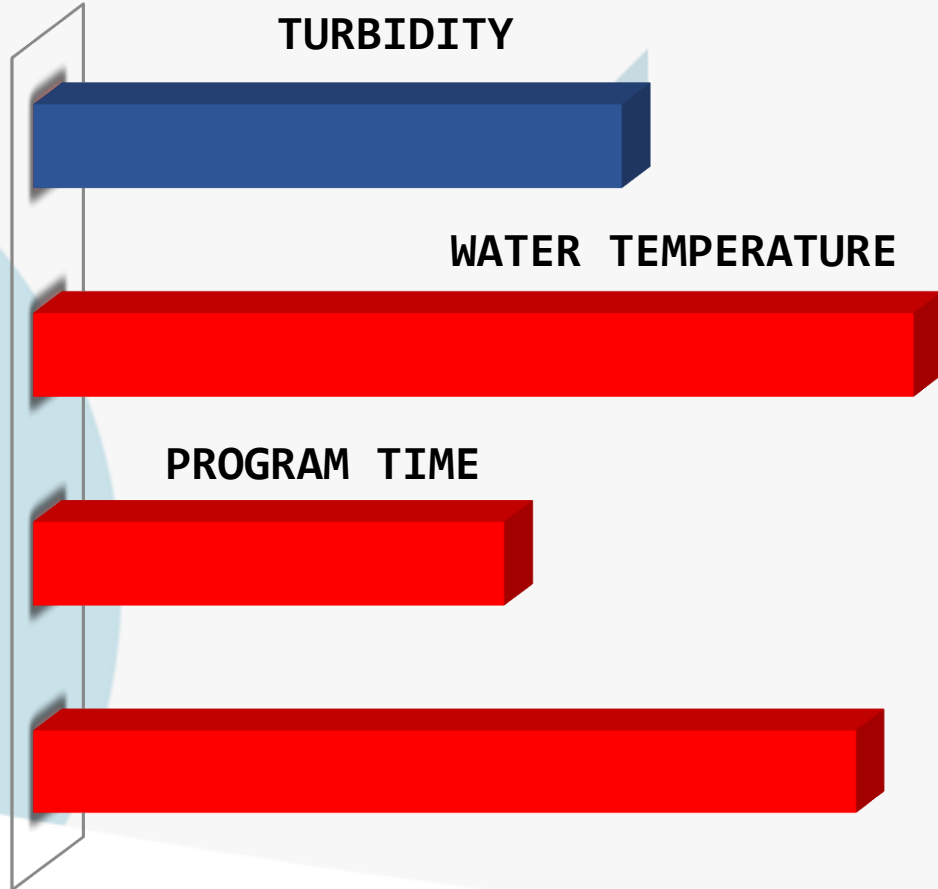

EcoWash Program

Provides the independent usage of upper and lower baskets within load options, saves energy and decrease water consumption.

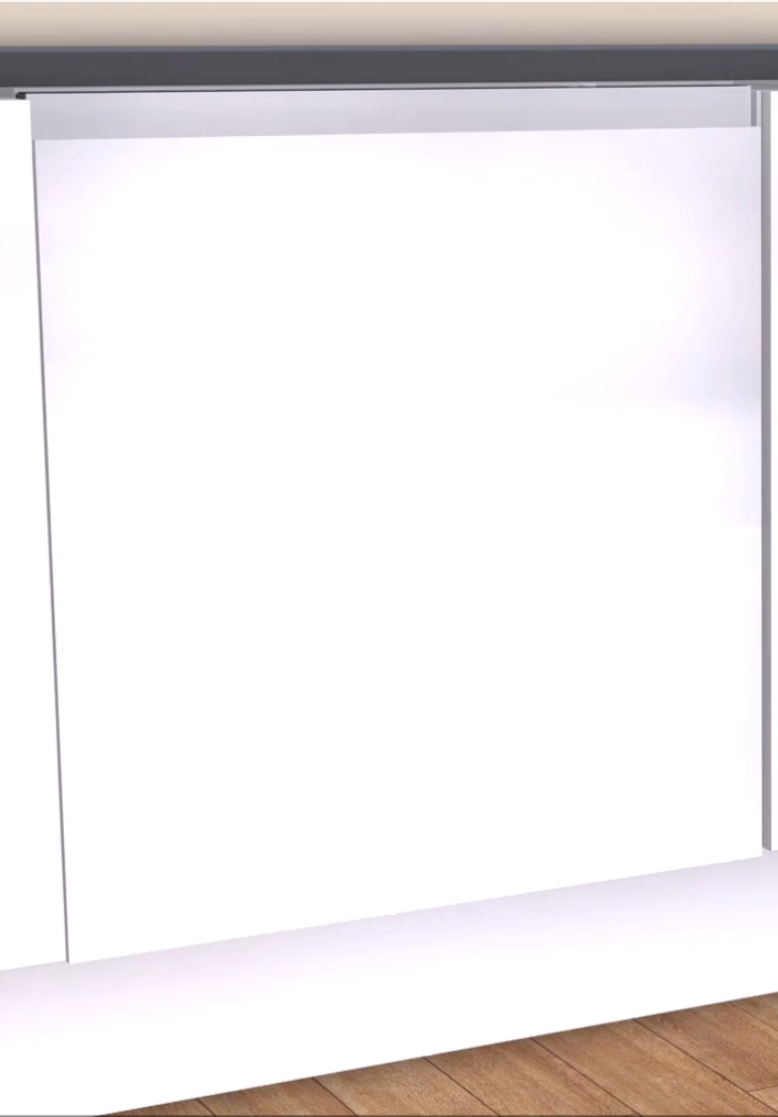

IntelliWash Feature

IntelliWash uses smart technology to intelligently measure the levels of turbidity in the water, providing maximum performance by applying the optimum washing temperature and time according to the amount of soil.

I-LED

Integrated dishwashers offer a space-saving and neat solution for washing the dishes

Due to the dishwasher controls being hidden, and the quiet operation of Sharp dishwashers, it is difficult to see if the program has ended

I-LED creates a cool glow on the top of the dishwasher door so you can see if the program is running or has ended

No need to follow the washing step on integrated machines.

Extra Options

Options	Compatible Programs	Affects To The Program Flow
Extra Dry	All programs except Mini and Prewash	Provides extra drying with turbo fan for 10-20 minutes (depends on the selected program).
Extra Rinse	All programs except Mini and Prewash	Adds an extra rinse step to achieve more hygienic washing. Program duration is increased 5-10 minutes and water consumption is increased 3-4 liter according to the selected program.
Extra Silent	Eco, Save+ 5.4 lt and Dual Pro Wash	With less motor speed and more washing time it provides extra silent wash.
Extra Fast	Eco, Save+ 5.4 lt and Dual Pro Wash	Decreases program duration while increasing water temperature and pressure to ensure higher washing quality in a shorter duration.
Extra Hygiene	All programs except Mini, Prewash and Quick 30'	Increases water temperature at final rinse step in order to eliminate bacteria and provides maximum hygiene.
Energy Save	All programs except Prewash and Steam Wash	A technology that makes the drying process more efficient. Auto Door opens the door of the dishwasher during the drying process automatically and by this way the hot air goes out of the dishwasher by itself.

39dBA Sharp SuperQuiet Dishwasher

Whisper-quiet, our Super Quiet dishwashers can operate at a barely audible 39dBA.

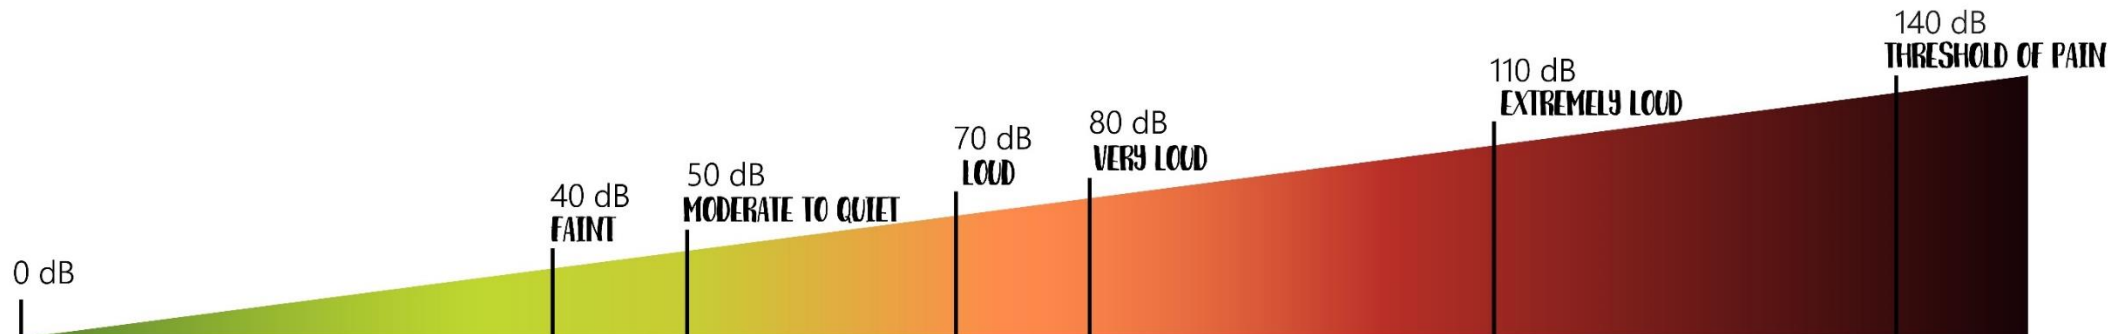

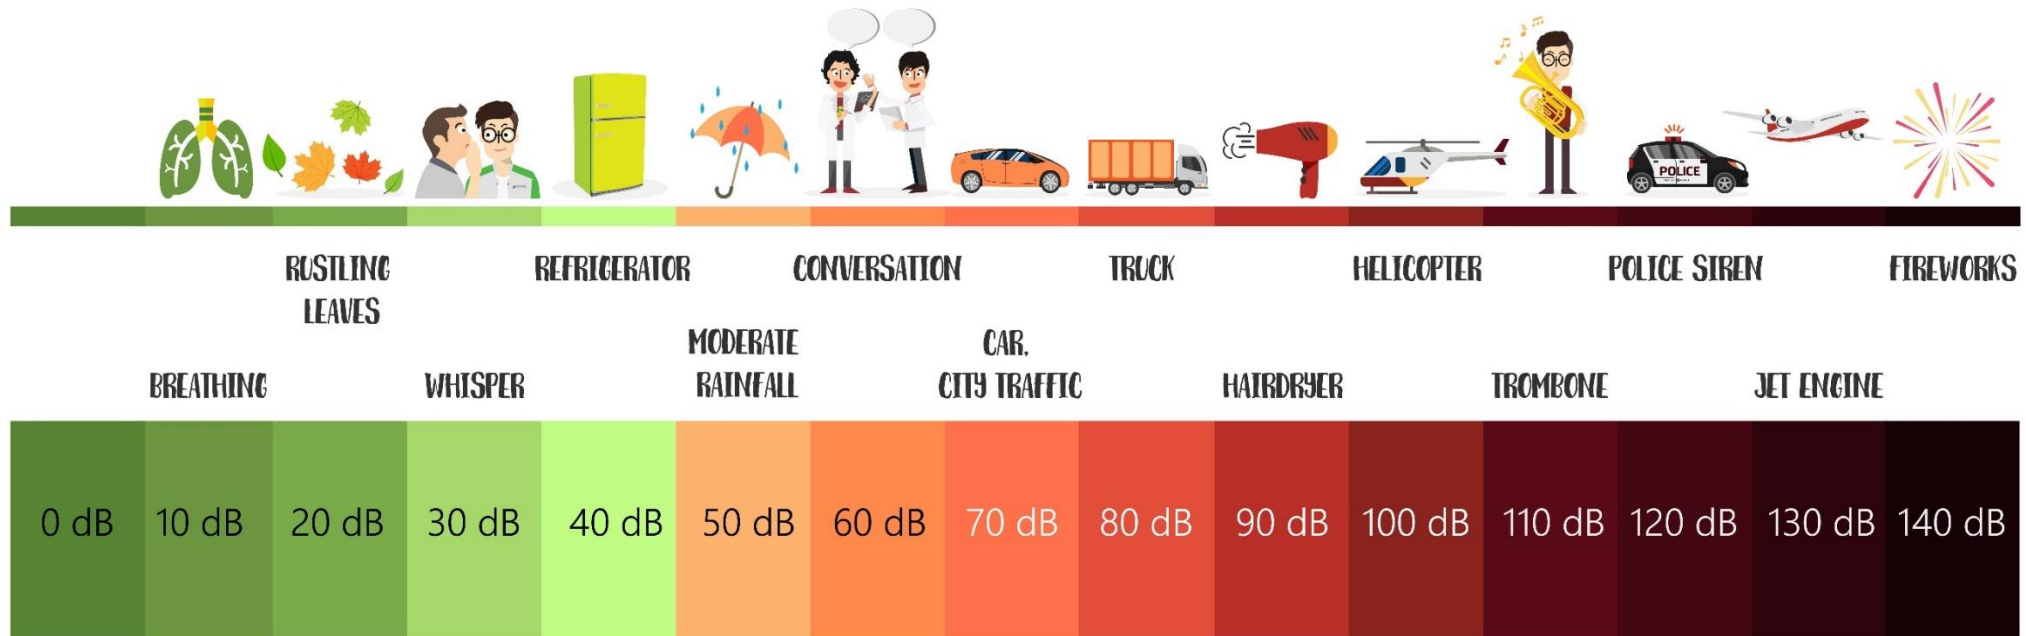

Circulation pump Advanced Inverter Motor technology, a specially designed cabinet and advanced sound insulation allow our dishwashers to perform without making a noise.

39dB Sharp SuperQuiet Dishwasher

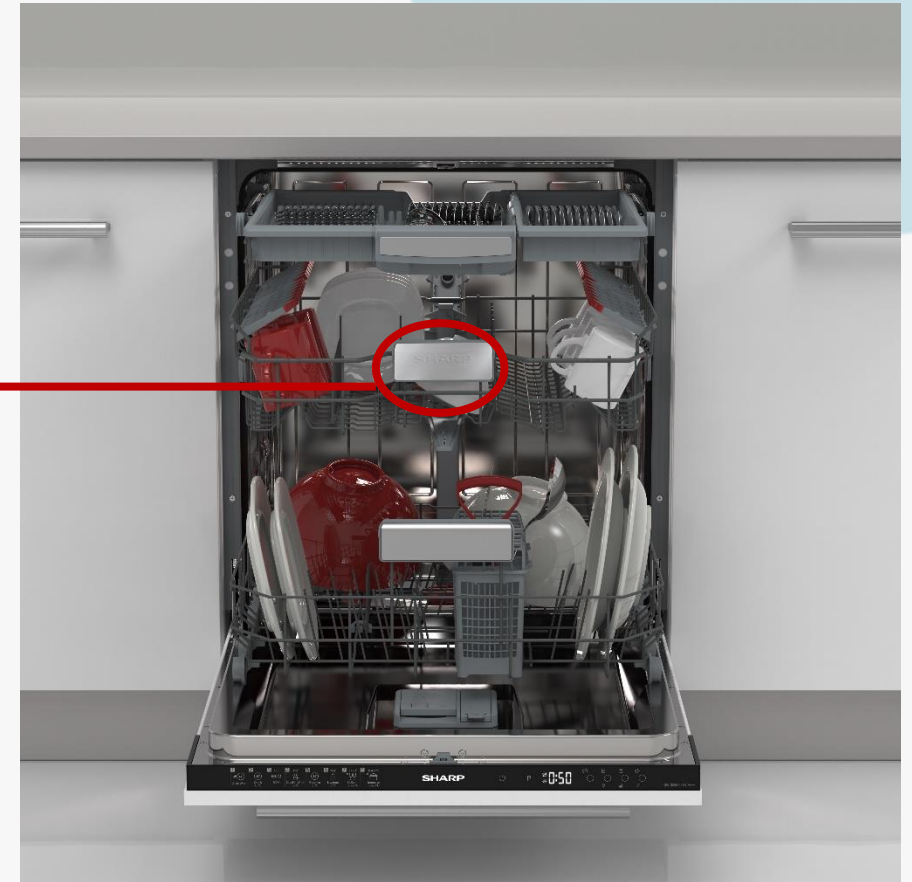

Decibel Scale

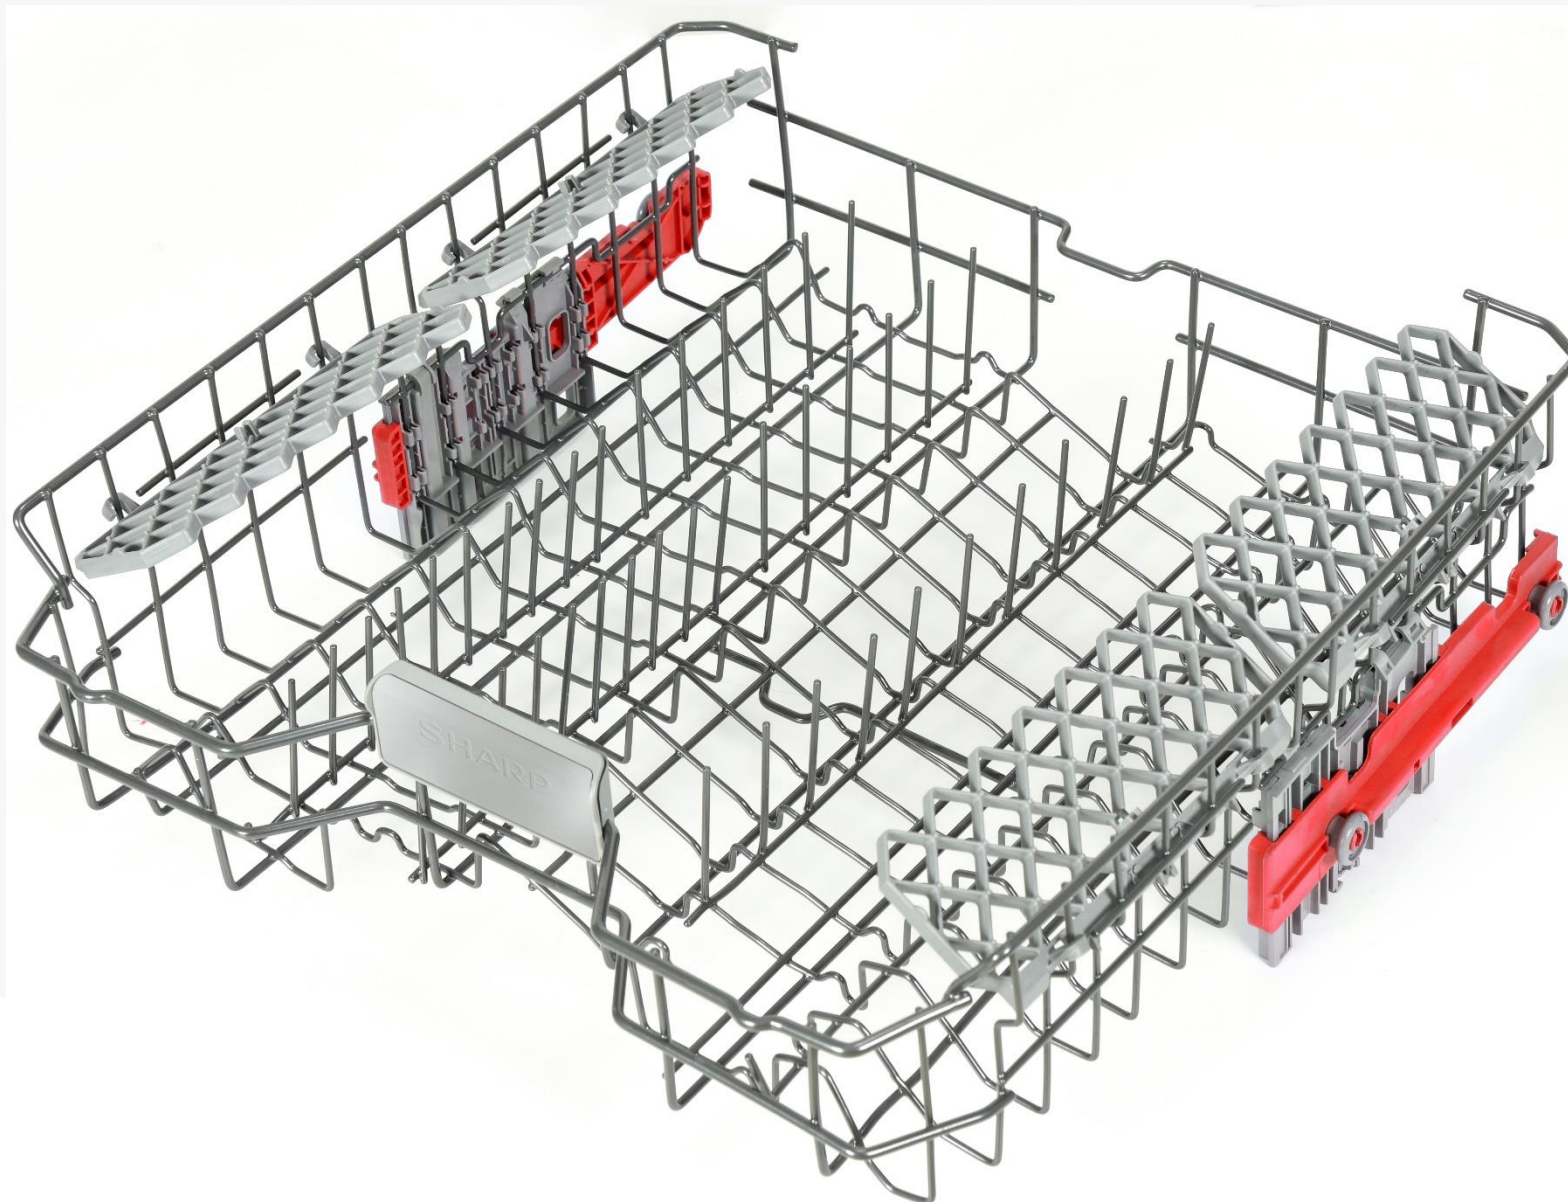

Exclusive Metal Handles

Basket handles (metal insert ones) have an emboss like “SHARP” figure. It means that you will notice an outward emboss when you hold the upper baskets’ metal handle.

Exclusive Metal Handles

Premium Features

Summary

Steam Wash

Making light work of stubborn dishes, Sharp SteamWash cleans baked-on food in a flash

High temperature and directly applied steam ensure perfect hygiene and gentle cleaning for dishes. Steam wash is more hygienic, healthier and clean perfectly every kind of soil.

SuperQuiet

Whisper quiet, this dishwasher can wash in near silence with only 39dBA sound level

Whisper-quiet, our Super Quiet dishwashers can operate at a barely audible 39dB.

Aquastop

The flood busting Aquastop hose shuts off the water supply in the event of a leak, limiting damage to your home

Aquastop is kind of water hose and this component can sense whether there is leakage on the hose and cuts the water accordingly.

Foldable Lower Racks

Pots and pans can be washed with ease thanks to these foldable lower rack wires

Racks are foldable for bottom basket, So you can also wash your big pans with dishwasher.

Foldable Upper & Lower

No need to struggle to get everything in, our machines have adjustable racks to fit in all your dishes, glasses, pots and pans

Racks are foldable for bottom and upper basket, So you can also wash your bigger dishes with dishwasher.

Instore Support

SHARP

Be Original.

Home Appliances

10yr Motor Warranty

Our **Advanced Inverter Motor** delivers superior efficiency and quieter operation, all backed by a 10yr parts warranty

EcoWash

Our machines come as standard with half-load Eco-Wash technology, helping to save time, energy and money

Hygiene

Our special filter eliminates 99% of bacteria keeping your dishwasher safe, clean and fresh

Express 50'

Delivering top washing quality in just 50', this program is the ultimate in efficient dishwashing

KnifeShelf

BALL RAIL SYSTEM ON THE UPPER BASKET

SmoothSlide

Ball rail system facilitates smooth upper basket movement even the upper basket is fully loaded.

New ball bearing rail system provides the movement of the upper basket more smoothly and safely.

AutoClean Filter

In 2023, as Vestel we will introduce Automatic Filter Cleaning system to the market and this technology provides automatic filter washing at the end of the cycle. It aims providing washing performance as it first using.

60 CM: **March 2023**

Auto Glass Safe

*Available with;

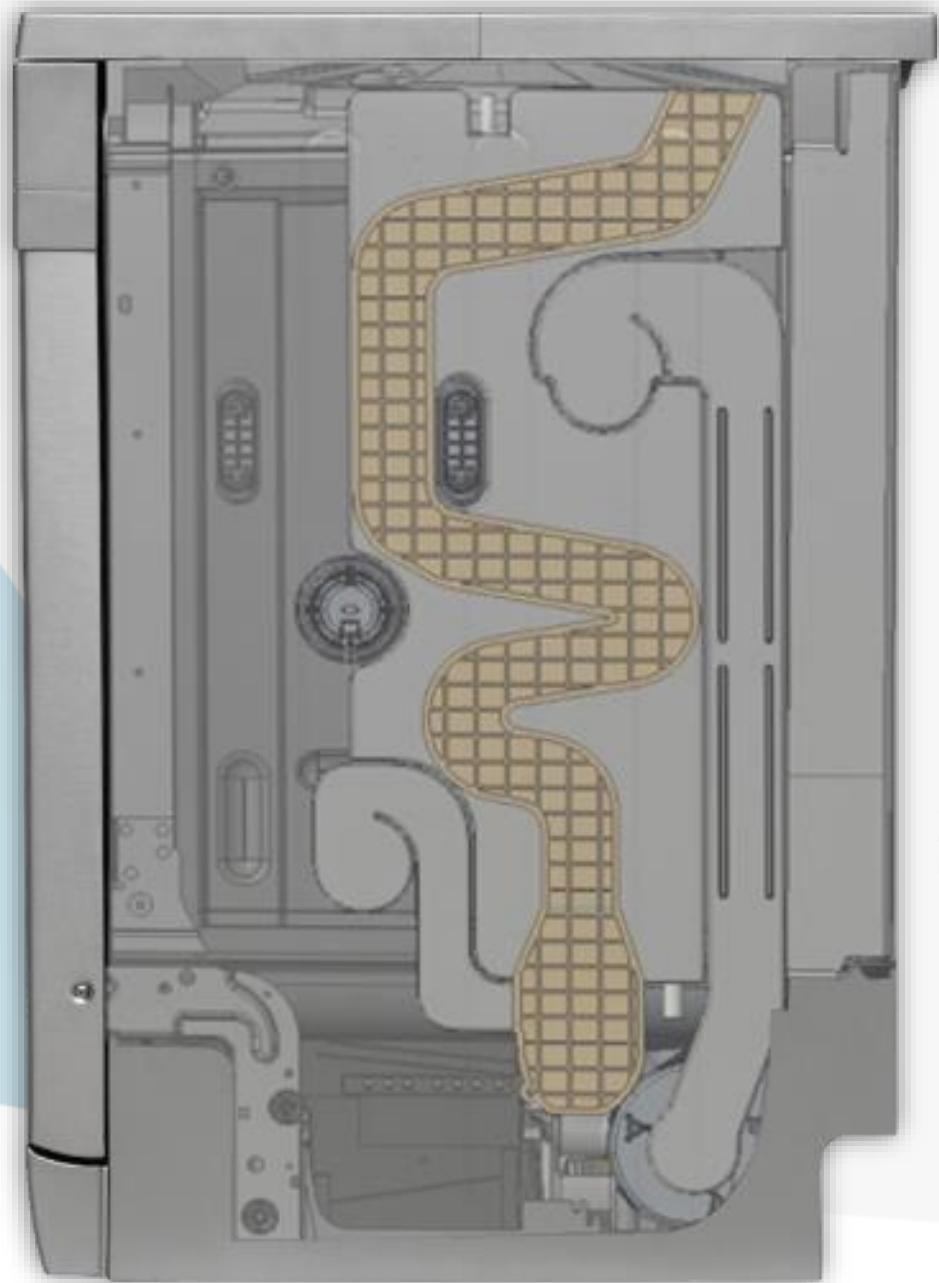

- 60cm A and S series Asynchronous Pump Models
- 60cm All I series Models

In 2023, as Vestel we will introduce Automatic Regeneration product to the market. With this tech., dishwasher makes hardness adjustments itself automatically to prevent corrosion of glassware over time.

60 CM: **May 2023**

SHARP
Be Original.

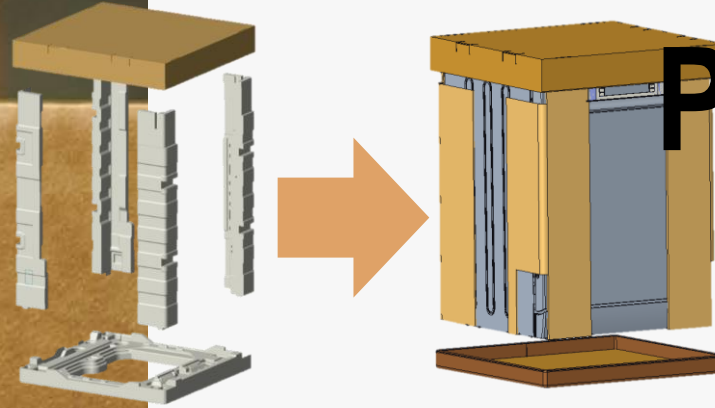

Self Heating System

This feature is the turbo fan drying system that uses waste water energy and heat.

60 CM: **TBC**

EPS Free Packaging

In 2023, as Vestel we will introduce EPS Free Packaging to the market and this feature provides that almost 700 trees are prevented from being cut down in a year.

60 CM: **June 2023**

SHARP
Be Original.
