Product Information Sheet

Supplier name or trademarkSHARPModel identifierKD-HHH8S8GW3-ITRated capacity8 KgTypeCondenserEnergy Efficiency ClassA++Weighted Annual Energy Consumption235 kWh/annumAutomatic tumble dryerI.88 kWhEnergy Consumption (E dry1/2)1.1 kWhEnergy Consumption (E dry1/2)kWhEnergy Consumption (Eg dry1/2)kWhEnergy Consumption (Eg dry1/2)kWhEnergy Consumption (Eg dry1/2,a)kWhEnergy Consumption (Eg dry1/2,a)kWhEnergy Consumption of the off-mode0.5 WPower Consumption of the left-on mode1 WThe 'standard cotton programme' used at full and partial load is the standard drying programmeto which the information in the label and the ficher relates. This programme is suitable for dryingnormal wet cotton laundry and it is the most efficient programme in terms of energy consumptionfor cotton.133 minutesWeighted programme time of the 'standard137 minutesrogramme at full load' (T dry)174 minutes
Rated capacity8 KgTypeCondenserEnergy Efficiency ClassA++Weighted Annual Energy Consumption235 kWh/annumAutomatic tumble dryer235 kWh/annumEnergy Consumption (E dry)1.88 kWhEnergy Consumption (E dry1/2)1.1 kWhEnergy Consumption (Eg dry)kWhEnergy Consumption (Eg dry1/2)kWhEnergy Consumption (Eg dry1/2)kWhEnergy Consumption (Eg dry1/2,a)kWhEnergy Consumption of the off-mode0.5 WPower Consumption of the left-on mode1 WThe 'standard cotton programme' used at full and partial load is the standard drying programmeto which the information in the label and the ficker relates. This programme is suitable for dryingnormal wet cotton laundry and it is the most efficient programme in terms of energy consumptionfor cotton.133 minutesWeighted programme time of the 'standard133 minutescotton programme at full and partial load'174 minutesProgramme at full load' (T dry)174 minutes
TypeCondenserEnergy Efficiency ClassA++Weighted Annual Energy Consumption235 kWh/annumAutomatic tumble dryer335 kWh/annumEnergy Consumption (E dry)1.88 kWhEnergy Consumption (E dry1/2)1.1 kWhEnergy Consumption (Eg dry)kWhEnergy Consumption (Eg dry1/2)kWhEnergy Consumption (Eg dry1/2)kWhEnergy Consumption (Eg dry1/2,a)kWhEnergy Consumption of the off-mode0.5 WPower Consumption of the left-on mode1 WThe 'standard cotton programme' used at full and partial load is the standard drying programmeto which the information in the label and the ficher relates. This programme is suitable for dryingnormal wet cotton laundry and it is the most efficient programme in terms of energy consumptionfor cotton.133 minutesWeighted programme time of the 'standard174 minutesprogramme at full load' (T dry)174 minutes
Energy Efficiency ClassA++Weighted Annual Energy Consumption235 kWh/annumAutomatic tumble dryer235 kWh/annumEnergy Consumption (E dry)1.88 kWhEnergy Consumption (E dry1/2)1.1 kWhEnergy Consumption (Eg dry)kWhEnergy Consumption (Eg dry1/2)kWhEnergy Consumption (Eg dry1/2,a)kWhEnergy Consumption of the off-mode0.5 WPower Consumption of the left-on mode1 WThe 'standard cotton programme' used at full and partial load is the standard drying programmeto which the information in the label and the ficher relates. This programme is suitable for dryingnormal wet cotton laundry and it is the most efficient programme in terms of energy consumptionfor cotton.133 minutesWeighted programme time of the 'standard174 minutesprogramme at full load' (T dry)174 minutes
Weighted Annual Energy Consumption235 kWh/annumAutomatic tumble dryerEnergy Consumption (E dry)1.88 kWhEnergy Consumption (E dry1/2)1.1 kWhEnergy Consumption (Eg dry)kWhEnergy Consumption (Eg dry1/2)kWhEnergy Consumption (Eg dry1/2,a)kWhEnergy Consumption of the off-mode0.5 WPower Consumption of the left-on mode1 WThe 'standard cotton programme' used at full and partial load is the standard drying programmeto which the information in the label and the ficher relates. This programme is suitable for dryingnormal wet cotton laundry and it is the most efficient programme in terms of energy consumptionfor cotton.133 minutesWeighted programme time of the 'standard174 minutesprogramme at full load' (T dry)174 minutes
Automatic tumble dryerEnergy Consumption (E dry)1.88 kWhEnergy Consumption (E dry1/2)1.1 kWhEnergy Consumption (Eg dry)kWhEnergy Consumption (Eg dry1/2)kWhEnergy Consumption (Eg dry1/2,a)kWhEnergy Consumption of the off-mode0.5 WPower Consumption of the left-on mode1 WThe 'standard cotton programme' used at full and partial load is the standard drying programmeto which the information in the label and the ficker relates. This programme is suitable for dryingnormal wet cotton laundry and it is the most efficient programme in terms of energy consumptionfor cotton.Weighted programme time of the 'standardProgramme time of the 'standard cottonProgramme time of the 'standard cottonprogramme at full load' (T dry)
Energy Consumption (E dry)1.88 kWhEnergy Consumption (E dry1/2)1.1 kWhEnergy Consumption (Eg dry)kWhEnergy Consumption (Eg dry1/2)kWhEnergy Consumption (Eg dry1/2,a)kWhPower Consumption of the off-mode0.5 WPower Consumption of the left-on mode1 WThe 'standard cotton programme' used at full and partial load is the standard drying programmeto which the information in the label and the ficher relates. This programme is suitable for dryingnormal wet cotton laundry and it is the most efficient programme in terms of energy consumptionfor cotton.Weighted programme time of the 'standardProgramme time of the 'standard cottonProgramme time of the 'standard cottonprogramme at full load' (T dry)
Energy Consumption (E dry1/2)1.1 kWhEnergy Consumption (Eg dry)kWhEnergy Consumption (Eg dry1/2)kWhEnergy Consumption (Eg dry,a)kWhEnergy Consumption (Eg dry1/2,a)kWhPower Consumption of the off-mode0.5 WPower Consumption of the left-on mode1 WThe 'standard cotton programme' used at full and partial load is the standard drying programmeto which the information in the label and the ficker relates. This programme is suitable for dryingnormal wet cotton laundry and it is the most efficient programme in terms of energy consumptionfor cotton.Weighted programme time of the 'standard133 minutescotton programme at full and partial load'174 minutes
Energy Consumption (Eg dry)kWhEnergy Consumption (Eg dry1/2)kWhEnergy Consumption (Eg dry,a)kWhEnergy Consumption (Eg dry1/2,a)kWhPower Consumption of the off-mode0.5 WPower Consumption of the left-on mode1 WThe 'standard cotton programme' used at full and partial load is the standard drying programme to which the information in the label and the ficherelates. This programme is suitable for drying normal wet cotton laundry and it is the most efficient programme in terms of energy consumption for cotton.Weighted programme time of the 'standard cotton programme at full and partial load'133 minutesProgramme time of the 'standard cotton programme at full load' (T dry)174 minutes
Energy Consumption (Eg dry1/2)kWhEnergy Consumption (Eg dry,a)kWhEnergy Consumption (Eg dry1/2,a)kWhPower Consumption of the off-mode0.5 WPower Consumption of the left-on mode1 WThe 'standard cotton programme' used at full and partial load is the standard drying programmeto which the information in the label and the ficher relates. This programme is suitable for dryingnormal wet cotton laundry and it is the most efficient programme in terms of energy consumptionfor cotton.Weighted programme time of the 'standardProgramme time of the 'standard cottonprogramme at full load' (T dry)
Energy Consumption (Eg dry,a)kWhEnergy Consumption (Eg dry1/2,a)kWhPower Consumption of the off-mode0.5 WPower Consumption of the left-on mode1 WThe 'standard cotton programme' used at full and partial load is the standard drying programme to which the information in the label and the ficherelates. This programme is suitable for drying normal wet cotton laundry and it is the most efficient programme in terms of energy consumption for cotton.Weighted programme time of the 'standard133 minutesProgramme time of the 'standard cotton174 minutesprogramme at full load' (T dry)174 minutes
Energy Consumption (Eg dry1/2,a)kWhPower Consumption of the off-mode0.5 WPower Consumption of the left-on mode1 WThe 'standard cotton programme' used at full and partial load is the standard drying programmeto which the information in the label and the fiche relates. This programme is suitable for dryingnormal wet cotton laundry and it is the most efficient programme in terms of energy consumptionfor cotton.Weighted programme time of the 'standardVeighted programme at full and partial load'Programme time of the 'standard cottonprogramme at full load' (T dry)
Power Consumption of the off-mode0.5 WPower Consumption of the left-on mode1 WThe 'standard cotton programme' used at full and partial load is the standard drying programme to which the information in the label and the ficherelates. This programme is suitable for drying normal wet cotton laundry and it is the most efficient programme in terms of energy consumption for cotton.Weighted programme time of the 'standard133 minutesCotton programme at full and partial load'174 minutesProgramme at full load' (T dry)174 minutes
Power Consumption of the left-on mode1 WThe 'standard cotton programme' used at full and partial load is the standard drying programme to which the information in the label and the ficherelates. This programme is suitable for drying normal wet cotton laundry and it is the most efficient programme in terms of energy consumption for cotton.Weighted programme time of the 'standard cotton programme at full and partial load'133 minutesProgramme time of the 'standard cotton174 minutesprogramme at full load' (T dry)174 minutes
The 'standard cotton programme' used at full and partial load is the standard drying programme to which the information in the label and the ficherelates. This programme is suitable for drying normal wet cotton laundry and it is the most efficient programme in terms of energy consumption for cotton. Weighted programme time of the 'standard drying programme at full and partial load' Programme time of the 'standard cotton programme at full load' (T dry)
to which the information in the label and the fiche relates. This programme is suitable for drying normal wet cotton laundry and it is the most efficient programme in terms of energy consumption for cotton. Weighted programme time of the 'standard drying' is a minutes cotton programme at full and partial load' Programme time of the 'standard cotton is programme at full load' (T dry) is a minutes of the drying is a minute of the drying is a minutes of the drying is a minutes of the drying is a minute of the dryin
normal wet cotton laundry and it is the most efficient programme in terms of energy consumption for cotton. Weighted programme time of the 'standard cotton programme at full and partial load' Programme time of the 'standard cotton 174 minutes programme at full load' (T dry)
for cotton.Weighted programme time of the 'standard133 minutescotton programme at full and partial load'174 minutesProgramme time of the 'standard cotton174 minutesprogramme at full load' (T dry)174 minutes
Weighted programme time of the 'standard cotton programme at full and partial load'133 minutesProgramme time of the 'standard cotton programme at full load' (T dry)174 minutes
cotton programme at full and partial load'Programme time of the 'standard cottonprogramme at full load' (T dry)
Programme time of the 'standard cotton 174 minutes programme at full load' (T dry)
programme at full load' (T dry)
Programme time of the 'standard cotton 103 minutes
programme at partial load' (T dry1/2)
Condensation efficiency class B
Average condensation efficiency (C dry) 81 %
Average condensation efficiency (C dry1/2) 81 %
Weighted condensation efficiency 81%
Sound power level (weighted average value) 65 dB
