Product Information Sheet

Delegated Regulation (EU) 392/2012

Supplier name or trademark	SHARP
Model identifier	KD-NHH8S7GW2-ES
Rated capacity	8 Kg
Туре	Condenser
Energy Efficiency Class	A++
Weighted Annual Energy Consumption	235 kWh/annum
Automatic tumble dryer	
Energy Consumption (E dry)	1.88 kWh
Energy Consumption (E dry1/2)	1.1 kWh
Energy Consumption (Eg dry)	kWh
Energy Consumption (Eg dry1/2)	kWh
Energy Consumption (Eg dry,a)	kWh
Energy Consumption (Eg dry1/2,a)	kWh
Power Consumption of the off-mode	0.5 W
Power Consumption of the left-on mode	1 W
The 'standard cotton programme' used at full and	d partial load is the standard drying programme
The 'standard cotton programme' used at full and to which the information in the label and the fich	, , , ,
to which the information in the label and the fich	, , , ,
to which the information in the label and the fich	ne relates. This programme is suitable for drying
to which the information in the label and the fich normal wet cotton laundry and it is the most effi	ne relates. This programme is suitable for drying
to which the information in the label and the fich normal wet cotton laundry and it is the most effi for cotton.	ne relates. This programme is suitable for drying cient programme in terms of energy consumption
to which the information in the label and the fich normal wet cotton laundry and it is the most effi for cotton. Weighted programme time of the 'standard	ne relates. This programme is suitable for drying cient programme in terms of energy consumption
to which the information in the label and the fich normal wet cotton laundry and it is the most effi for cotton. Weighted programme time of the 'standard cotton programme at full and partial load'	ne relates. This programme is suitable for drying cient programme in terms of energy consumption 133 minutes
to which the information in the label and the fich normal wet cotton laundry and it is the most effi for cotton. Weighted programme time of the 'standard cotton programme at full and partial load' Programme time of the 'standard cotton	ne relates. This programme is suitable for drying cient programme in terms of energy consumption 133 minutes
to which the information in the label and the fich normal wet cotton laundry and it is the most effi for cotton. Weighted programme time of the 'standard cotton programme at full and partial load' Programme time of the 'standard cotton programme at full load' (T dry)	ne relates. This programme is suitable for drying cient programme in terms of energy consumption 133 minutes 174 minutes
to which the information in the label and the fich normal wet cotton laundry and it is the most effi for cotton. Weighted programme time of the 'standard cotton programme at full and partial load' Programme time of the 'standard cotton programme at full load' (T dry) Programme time of the 'standard cotton programme at partial load' (T dry1/2) Condensation efficiency class	ne relates. This programme is suitable for drying cient programme in terms of energy consumption 133 minutes 174 minutes
to which the information in the label and the fich normal wet cotton laundry and it is the most effi for cotton. Weighted programme time of the 'standard cotton programme at full and partial load' Programme time of the 'standard cotton programme at full load' (T dry) Programme time of the 'standard cotton programme at partial load' (T dry1/2)	ne relates. This programme is suitable for drying cient programme in terms of energy consumption 133 minutes 174 minutes 103 minutes
to which the information in the label and the fich normal wet cotton laundry and it is the most effi for cotton. Weighted programme time of the 'standard cotton programme at full and partial load' Programme time of the 'standard cotton programme at full load' (T dry) Programme time of the 'standard cotton programme at partial load' (T dry1/2) Condensation efficiency class	ne relates. This programme is suitable for drying cient programme in terms of energy consumption 133 minutes 174 minutes 103 minutes
to which the information in the label and the fich normal wet cotton laundry and it is the most effi for cotton. Weighted programme time of the 'standard cotton programme at full and partial load' Programme time of the 'standard cotton programme at full load' (T dry) Programme time of the 'standard cotton programme at partial load' (T dry1/2) Condensation efficiency class Average condensation efficiency (C dry)	ne relates. This programme is suitable for drying cient programme in terms of energy consumption 133 minutes 174 minutes 103 minutes B 81 %
