T Series Knob & Jog Dial

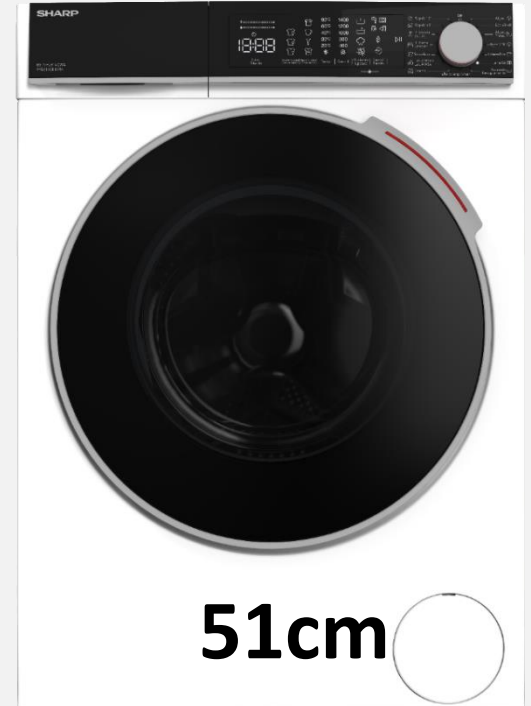

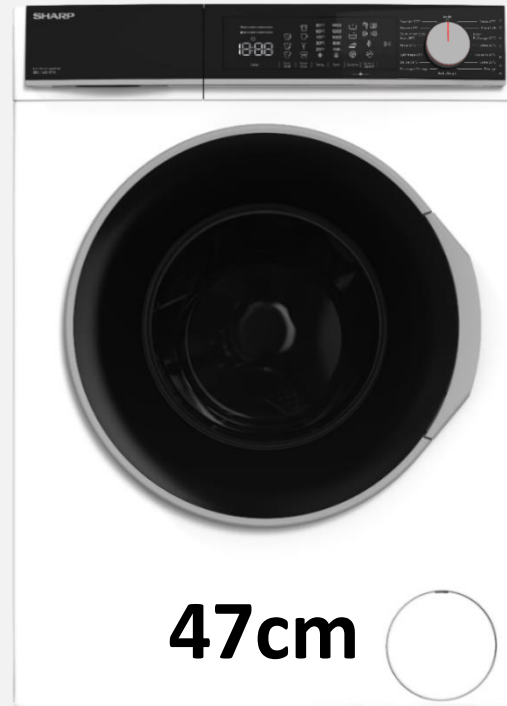

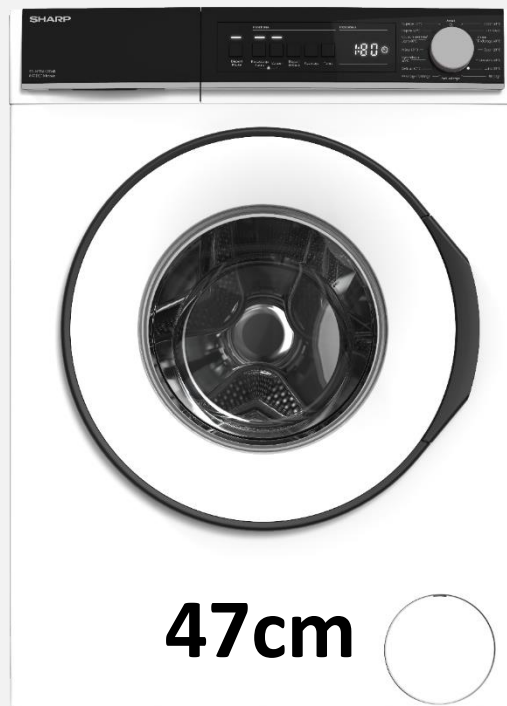

Body & Door Types

Wave Cabinet

The specially designed cabinet increases the rigidity of the machine and at the same time reduces noise levels by offering stylish look

Big & Giant Door Design

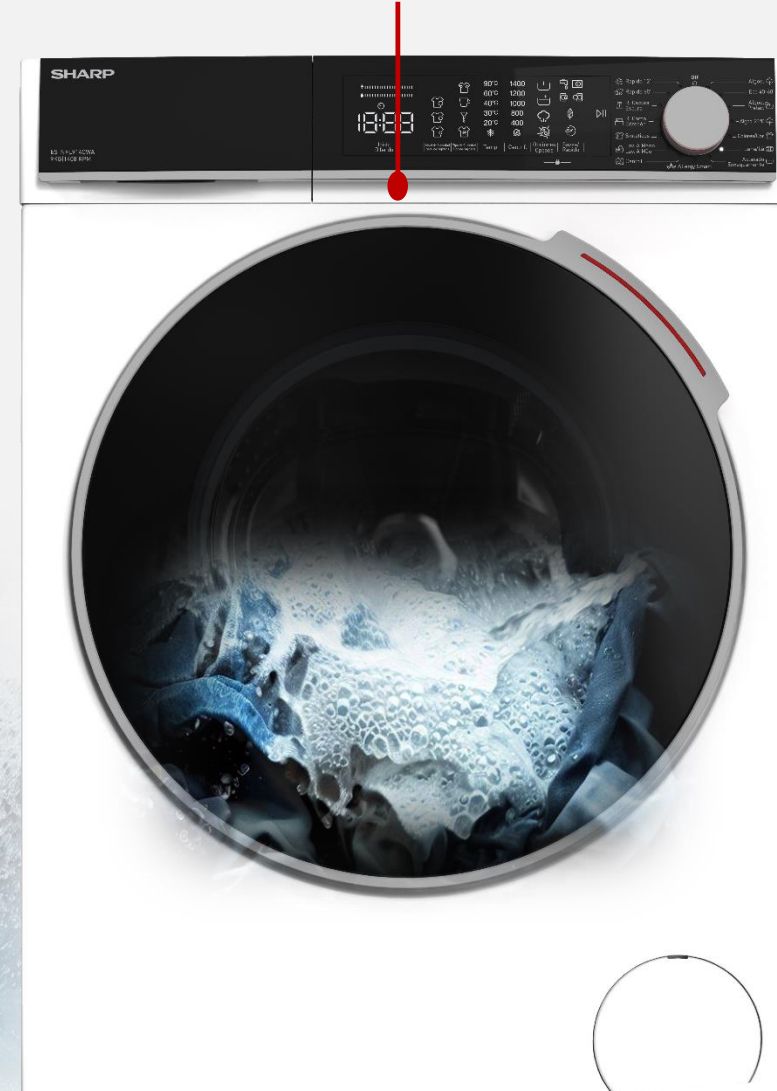

Premium Features

Over Flow Protection

Overflow protection system detects potential problems with water supply, which may result with overflowing. In case of any problem, drain pump is automatically turned on.

The Electronic Pressure Sensor (EPS) determines the water level that is inside the drum.

Overflow sensor (EPS)

Eco Logic Feature

A sophisticated eco-logic system detects when the machine is half-loaded, so energy consumption can be automatically reduced by up to 50% and water consumption and programme durations are decreased, saving time, energy and money.

Allergy Smart Program

Special Algorithm provides complete hygiene up to %99,9. Reduce common allergens and bacteria.

Allergens

- House Dust Mite
- Cat allergen
- Dog allergen
- Live House Dust Mite
- Pollen
- Fungi

Bacterias

- Escherichia coli
- Enterococcus faecalis
- Staphylococcus aureus
- Staphylococcus saprop

Awarded «Seal of Approval» by Allergy UK, which is a reputable foundation that had been established in order to support approximately 21 million allergy patients in England.

DoubleJet Technology

Directly injects water and detergent mix onto laundry using a re-circulation pump system and two nozzles connected to it.

**Saves Energy, Water and Time
Brings Perfect Cleaning Results**

SHARP

Be Original.

DoubleJet Technology

-Perfect Combination of Cleaning and Energy Saving

A - 20 %

Energy Consumption
Can Be Achieved
With DJ Technology*

Lower Energy Consumption

- Energy Consumption for Conventional 8 kg Washing Machine : 73 kwh/100cycle
- Energy Consumption fo Sharp DJ 8 kg Washing Machine : 63 kwh/100cycle

Better Washing & Rinsing Performance

- Nozzles directly injects water & detergent mix onto laundry that is why the mix penetrates better to the laundry
- With DJ, WM uses lower water&detergent mix

Shorter Program Duration

- Fastest programme lasts 12 minutes with DJ whilst it lasts 15 minutes without DJ.

*With Combination of Advanced Inverter Motor

EcoTrack

-The Tool you need to estimate the amount of energy and water that will be consumed according to selected program

With this powerful feature, you'll get accurate estimates of your water and energy usage, so you can make more informed decisions about your household's impact on environment

	90°C	1400			
	60°C	1200			
	40°C	1000			
	30°C	800			

Save+ / Speed

- Gives you maximum control over your laundry routine.

By adjusting the temperature and duration of the wash cycle, the Save+ feature optimizes the washing process to ensure that you can use only the energy you need. This means that you can enjoy the same great cleaning results while reducing your energy consumption and your impact on the environment.

With Speed feature, it is possible to reduce the washing cycle time by adjusting the program parameters, without compromising on the quality of the wash. With our speed feature, you can now complete your laundry in record time, giving you more time to focus on the things that matter most.

Drum Clean

- The ultimate solution to keep your laundry smelling fresh

The Drum Clean feature uses a powerful combination of water and cleaning agents to thoroughly clean the drum of your washing machine. The process is simple and easy – just activate the feature and let it work its magic. The result? A sparkling clean drum that ensures your laundry comes out smelling and feeling fresh.

Stain Master

-No more worrying about pre-treating your clothes

With our innovative Stain Master feature, you can choose from four different stain types: oil, sweat, coffee and mix, and the washing machine will automatically adjust the wash cycle to provide optimal cleaning performance.

With the Stain Master, you can be confident that your clothes are receiving the best possible cleaning performance. Whether it is coffee stains from your morning cup, or oil stains from cooking our washing machine can handle it all

Stain Fighting Support

-Say goodbye to stubborn stains on your clothes forever

Our washing machine is designed to give you maximum control over your laundry, and the stain fighting support is the perfect example of this. With this feature you can now choose the level of dirt on your clothes and machine will adjust the program parameters accordingly

Our washing machine does all the hard work for you leaving your clothes looking fresh and new after every wash.

Steam

-Ultimate clean and Freshness

This powerful technology uses steam to penetrate deep into the fibers of your clothes, effectively removing even the most stubborn stains, odors and allergens.

The Steam feature is perfect for people with sensitive skin or allergies. The proven effect* of our Steam feature removes allergens such as dust mites and pollen, leaving your clothes fresh, clean and healthy.

Not only does our Steam feature give you a superior clean, but it also saves you time and energy. You'll spend less time and energy during ironing since Steam will already reduce the

SHARP
Be Original.

* Using With Daily 60 Program

Steam

-Ultimate clean and Freshness

For Which Programs Can We Use Steam?

If the model has, Steam option can be active in all programs.

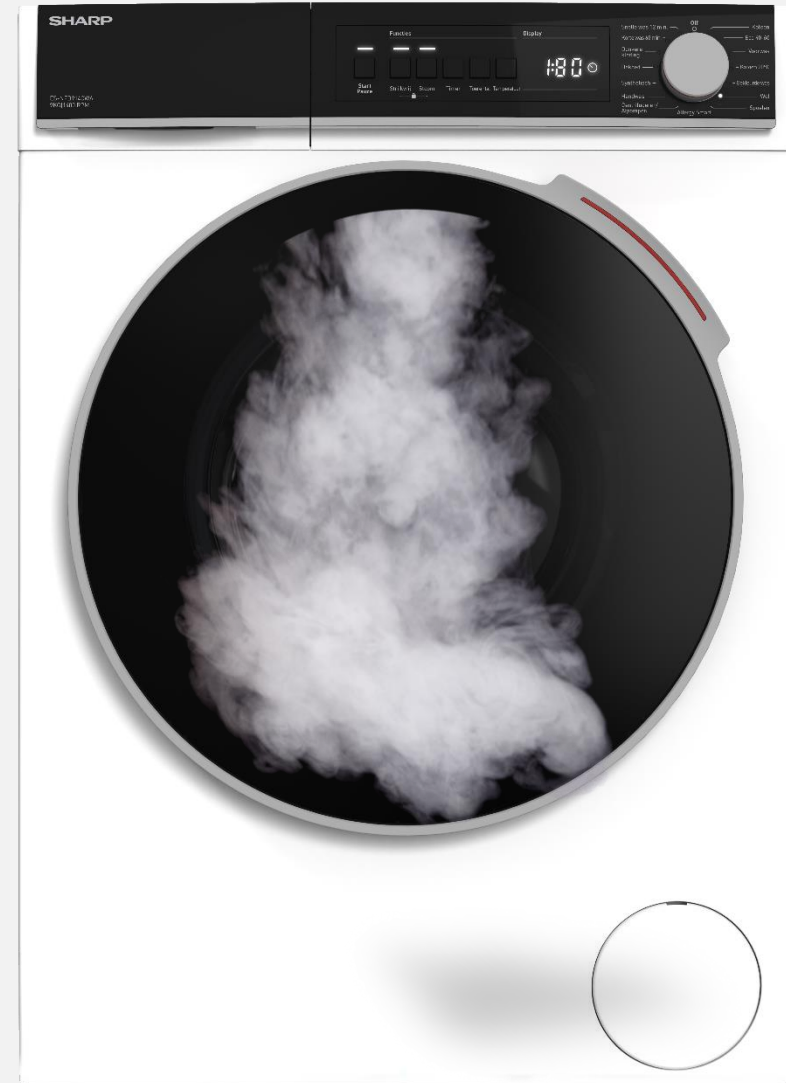

Steam

-Ultimate clean and Freshness

What is the algorithm of Steam option?

- There is a steam session at the end of program.
- After Steam selection, there is 26 minutes program duration increasing.
- In this process, steam is obtained intermittently by activating the heater.

IntelliDos

-The Perfect Solution for Hassle-Free Laundry

With this technology, you can now say goodbye to the guesswork and wastage associated with traditional laundry methods.

Our innovative system utilizes advanced sensors to accurately determine the optimal amount of detergent and softener needed for each wash cycle.

This means that you'll never have to worry about using too much or too little detergent, resulting in subpar cleaning or fabric damage.

SHARP

Be Original.

IntelliDos

- The Perfect Solution for Hassle-Free Laundry

Not only does our automatic dosage technology save you time and effort, but it also helps to reduce your environmental impact. By using only the precise amount of detergent and softener required, you can minimize waste and conserve resources. Plus, with fewer chemicals being released into the environment, you can feel good about your contribution to a healthier planet.

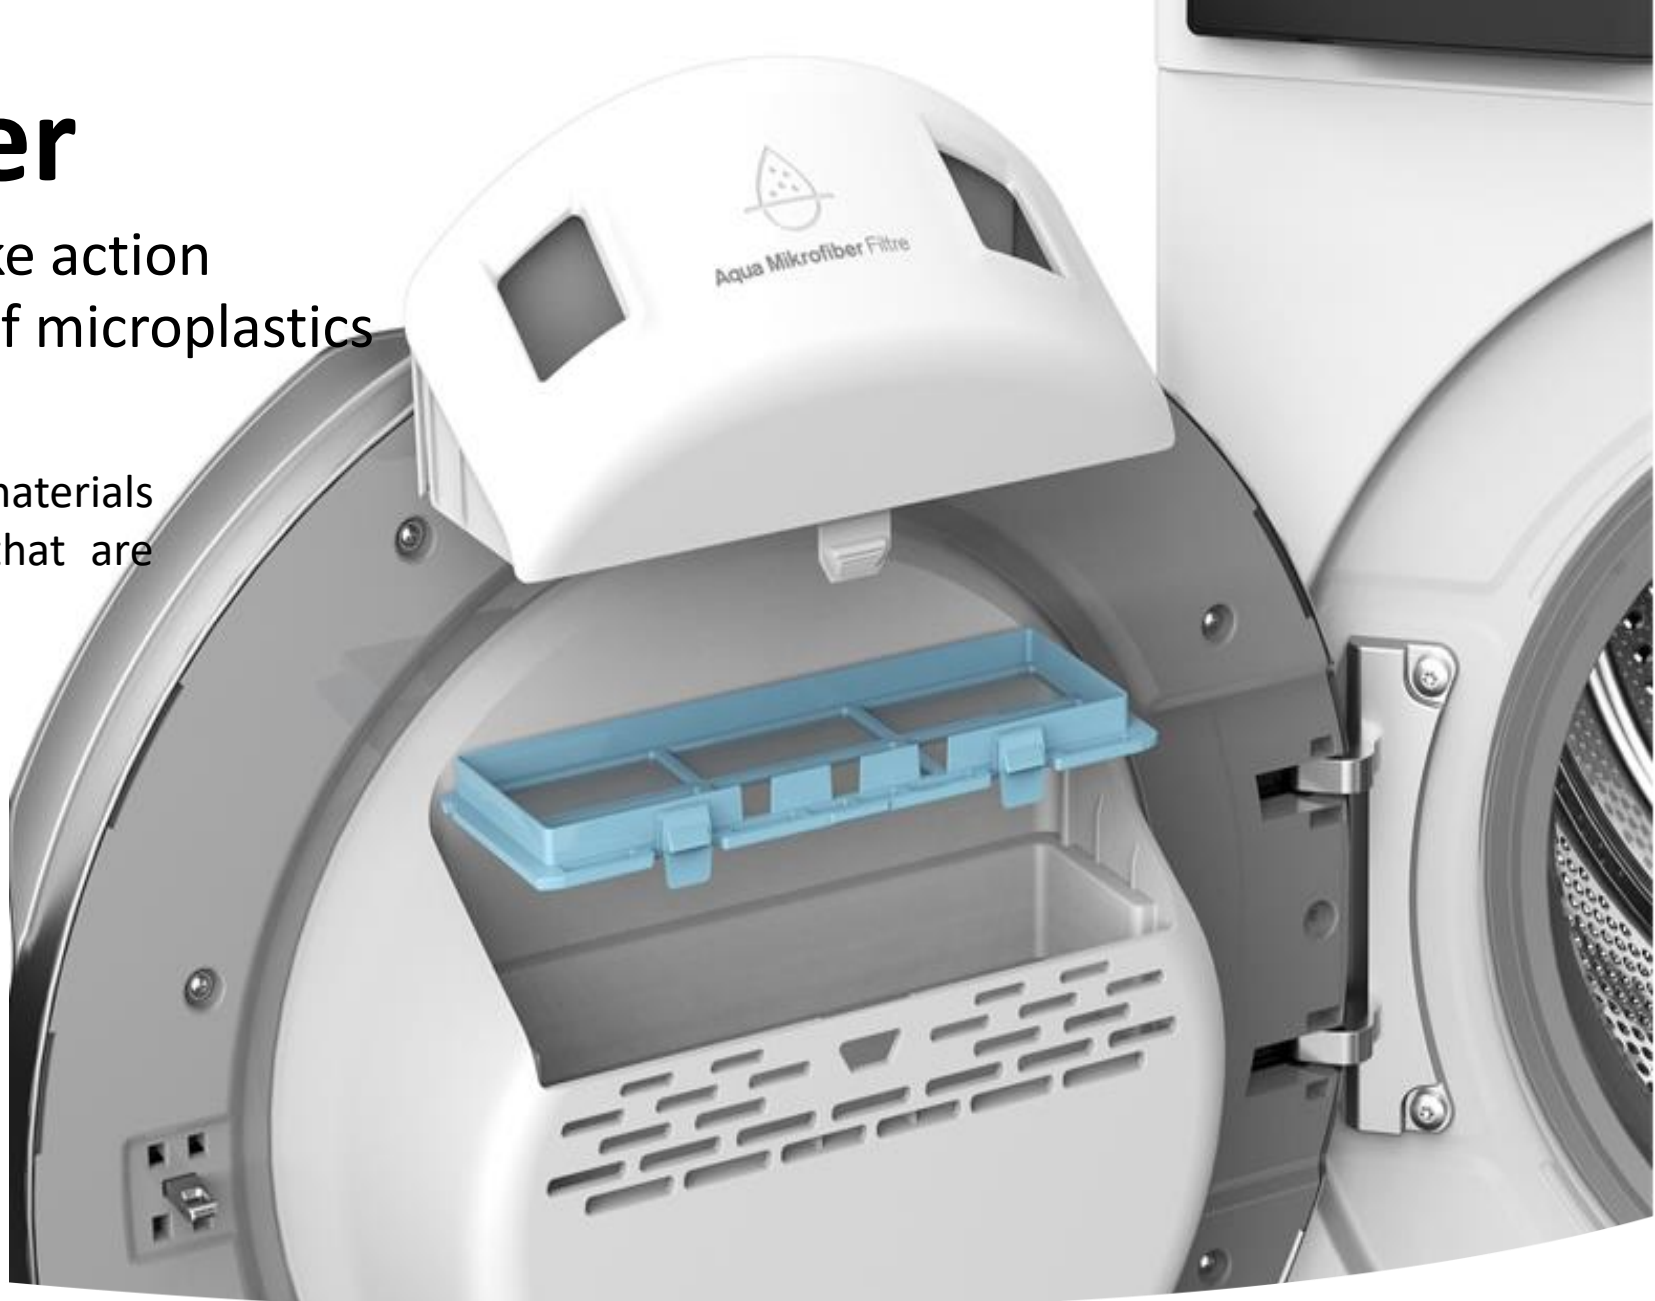

MicroFiber Filter

-Make a real difference and take action against the growing problem of microplastics

Our innovative system utilizes advanced materials and design to catch all of the fibers that are released during the washing cycle.

Traditional laundry methods release millions of microfibers into our water supply every day, contributing to the growing problem of microplastic pollution. But with our microfiber technology, you can now wash your clothes with confidence, knowing that you're doing your part to protect the planet

SHARP
