Flexible nozzle

sharphomeappliances.com

SHARP
Be Original.

Meet the multifunctional Sharp **SA-VP4001AQ** vacuum cleaner

Vertical parking position

The vacuum cleaner does not need a stand and will remain upright wherever you leave it. You don't need to bend down to grab it every time you want to take a break from cleaning. The standing position also makes it easier to store the vacuum cleaner in a wardrobe or a closet. If you prefer, you can hang the device on a special wall-mounted holder.

Adjustable telescopic tube

You can easily adjust the length of the tube to your height and set it at one of the seven levels of adjustment from 890 to 1100 mm. You can also set the length of the tube to thoroughly clean all hard-to-reach places. Vacuuming corners under the ceiling has never been as easy and convenient!

Mopping attachment

Vacuum and mop the floor simultaneously. You save yourself time to keep the floors in your home always spotlessly clean. The attachment can be installed quickly and easily with a single click. To clean the floor, just use clear water or add some detergent***.

Long working time

When fully charged, the lithium-ion battery allows for 60* minutes of uninterrupted vacuuming, which means that you can quickly clean an apartment with a surface of up to 130 m²**. The battery can be easily removed and replaced with a spare one (sold separately on the website) when you plan a bigger clean-up.

Inverter motor

The brushless motor guarantees a quiet operation of the device. Owing to its design, it is extremely durable and reliable. Regardless of the surface that needs to be cleaned, vacuum cleaners with an inverter motor have high suction power and are very efficient.

AnimalJet electro brush with LED light

It has been designed to collect animal hair, hair and dust from floors, carpets, along walls and furniture edges. Thanks to the LED lighting, you won't miss anything, while the appropriate profiling of the brush protects furniture, walls and thresholds from damage.

4-stage filtration

Not only does it protect the motor from dust particles, but it also keeps pollen, mite faeces and bacteria inside the dust container. The EPA E12 filter captures 99.5% of harmful particles. When necessary, you can wash it under running water or replace it with a new one.

Hygienic emptying of the container

Press the button to open the dust container and empty it directly into the dustbin.

Easy and hygienic cleaning of various surfaces

Conveniently and thoroughly clean the entire apartment using accessories for various surfaces.

Included in the set

Wall mount

The vacuum cleaner, although smart and neat, does not need to be visible. It can be mounted on a wall bracket and stored away, so that it does not take up space and you can keep everything in order.

AnimalJet electro brush

It is intended for cleaning both hard floors and carpets. Select the appropriate program (carpet or floor) to remove all dust, crumbs and pet hair. The special design of the brush will make it easier to clean the surface along the walls and furniture. Thanks to LED lighting, you can see dust even in shaded places, e.g. under furniture.

Narrow XL crevice nozzle

Dust and crumbs tend to gather in crevices behind furniture or in car seats. To get rid of them quickly, use the narrow crevice nozzle XL to remove dirt in hard-to-reach places.

2-in-1 brush

With the 2-in-1 nozzle, you can quickly remove dust that gathers on delicate elements, such as blinds. A soft brush will adapt to the surface to be cleaned and remove dirt without causing any damage.

Mopping attachment and 2 pads

Vacuuming and cleaning floors simultaneously will save you time. Pour in your favourite floor cleaner**** to enjoy a stain- and streak-free floor that is always clean. The pads are fastened with Velcro, so you can easily put them in place and remove them for washing.

Mini electric brush

Thanks to its design, it carefully gathers pet hair and dust that accumulates on upholstered furniture and mattresses. Even if the velour armchair is your pet's favourite, you can clean it as easily as any other piece of furniture.

Flexible nozzle

It is unbeatable when it comes to cleaning hard to reach and narrow spaces. The attached brush will effectively remove dirt from radiators, stucco or any nooks and crannies inside the car.

*When working in the Eco mode with nozzles without their own motor. The actual operating time may vary depending on the power mode, the type of floor and/or accessories used.

**When operating in the Eco mode on a hard floor. The actual operating time may vary depending on the power mode, the type of floor and/or accessories used.

*** Do not use greasy liquids and caustic substances.

**** Handheld vacuum cleaner with a telescopic tube and the AnimalJet electric brush.

Meet the multifunctional Sharp **SA-VP4001BS** vacuum cleaner

Vertical parking position

The vacuum cleaner does not need a stand and will remain upright wherever you leave it. You don't need to bend down to grab it every time you want to take a break from cleaning. The standing position also makes it easier to store the vacuum cleaner in a wardrobe or a closet. If you prefer, you can hang the device on a special wall-mounted holder.

Adjustable telescopic tube

You can easily adjust the length of the tube to your height and set it at one of the seven levels of adjustment from 890 to 1100 mm. You can also set the length of the tube to thoroughly clean all hard-to-reach places. Vacuuming corners under the ceiling has never been as easy and convenient!

Animal Set

A practical set of brushes will allow you to easily remove hair and pet hair from all surfaces, for instance from sofas. You can also use the spiked brush for the regular grooming of your pets to gently remove any loose hair during the shedding period.

Long working time

When fully charged, the lithium-ion battery allows for 60* minutes of uninterrupted vacuuming, which means that you can quickly clean an apartment with a surface of up to 130 m²**. The battery can be easily removed and replaced with a spare one (sold separately on the website) when you plan a bigger clean-up.

Inverter motor

The brushless motor guarantees a quiet operation of the device. Owing to its design, it is extremely durable and reliable. Regardless of the surface that needs to be cleaned, vacuum cleaners with an inverter motor have high suction power and are very efficient.

AnimalJet electro brush with LED light

It has been designed to collect animal hair, hair and dust from floors, carpets, along walls and furniture edges. Thanks to the LED lighting, you won't miss anything, while the appropriate profiling of the brush protects furniture, walls and thresholds from damage.

4-stage filtration

Not only does it protect the motor from dust particles, but it also keeps pollen, mite faeces and bacteria inside the dust container. The EPA E12 filter captures 99.5% of harmful particles. When necessary, you can wash it under running water or replace it with a new one.

Hygienic emptying of the container

Press the button to open the dust container and empty it directly into the dustbin.

Efficiently vacuums pet hair from all types of surfaces

With nozzles and brushes for various types of surfaces, cleaning does not have to be a drag, even if you need to do it several times a day.

Included in the set

Wall mount

The vacuum cleaner, although smart and neat, does not need to be visible. It can be mounted on a wall bracket and stored away, so that it does not take up space and you can keep everything in order.

AnimalJet electro brush

It is intended for cleaning both hard floors and carpets. Select the appropriate program (carpet or floor) to remove all dust, crumbs and pet hair. The special design of the brush will make it easier to clean the surface along the walls and furniture. Thanks to LED lighting, you can see dust even in shaded places, e.g. under furniture.

Narrow XL crevice nozzle

Dust and crumbs tend to gather in crevices behind furniture or in car seats. To get rid of them quickly, use the narrow crevice nozzle XL to remove dirt in hard-to-reach places.

2-in-1 brush

With the 2-in-1 nozzle, you can quickly remove dust that gathers on delicate elements such as blinds. A soft brush will adapt to the surface to be cleaned and remove dirt without damaging it. It will also work well when cleaning the car.

Sofa brush

Its design allows it to remove all pet hair and dust that accumulates on upholstered furniture and mattresses. It allows you to keep velour armchairs perfectly clean and quickly refresh the sofa in the guest room.

Flexible extension hose

The 44 cm adjustable hose, which can be stretched up to 110 cm, replaces the telescopic tube when you need to vacuum small and tight spaces, e.g. inside the car. It also acts as an adapter for a soft brush and a flexible nozzle, creating a practical set of additional cleaning accessories.

Pet brush

Thanks to the special design of the pet brush with delicate spikes, you can brush your pet during periods of intense moulting and reduce the amount of hair left around the house. Pet hair is immediately sucked in during brushing and trapped by the filters of the vacuum cleaner.

*When working in the Eco mode with nozzles without their own motor. The actual operating time may vary depending on the power mode, the type of floor and/or accessories used.

**When operating in the Eco mode on a hard floor. The actual operating time may vary depending on the power mode, the type of floor and/or accessories used.

Meet the multifunctional Sharp SA-VP3501BS vacuum cleaner

Vertical parking position

The vacuum cleaner does not need a stand and will remain upright wherever you leave it. You don't need to bend down to grab it every time you want to take a break from cleaning. The standing position also makes it easier to store the vacuum cleaner in a wardrobe or a closet. If you prefer, you can hang the device on a special wall-mounted holder.

Adjustable telescopic tube

You can easily adjust the length of the tube to your height and set it at one of the seven levels of adjustment from 890 to 1100 mm. You can also set the length of the tube to thoroughly clean all hard-to-reach places. Vacuuming corners under the ceiling has never been as easy and convenient!

A set of car nozzles

A practical set of nozzles will allow you to thoroughly clean lockers, grilles and all nooks and crannies of the dashboard, as well as small spaces next to car seats. The nozzles will also efficiently remove dust from radiators, computer keyboards or printers. The flexible bristle of the nozzles easily removes dust and dirt.

Long working time

When fully charged, the lithium-ion battery allows for 60* minutes of uninterrupted vacuuming, which means that you can quickly clean an apartment with a surface of up to 130 m²*. The battery can be easily removed and replaced with a spare one (sold separately on the website) when you plan a bigger clean-up.

Inverter motor

The brushless motor guarantees a quiet operation of the device. Owing to its design, it is extremely durable and reliable. Regardless of the surface that needs to be cleaned, vacuum cleaners with an inverter motor have high suction power and are very efficient.

AnimalJet electro brush with LED light

It has been designed to collect animal hair, hair and dust from floors, carpets, along walls and furniture edges. Thanks to the LED lighting, you won't miss anything, while the appropriate profiling of the brush protects furniture, walls and thresholds from damage.

Not only does it protect the motor from dust particles, but it also keeps pollen, mite faeces and bacteria inside the dust container. The EPA E12 filter captures 99.5% of harmful particles. When necessary, you can wash it under running water or replace it with a new one.

Hygienic emptying of the container

Press the button to open the dust container and empty it directly into the dustbin.

Easy cleaning of different types of surfaces

Conveniently and thoroughly clean the entire apartment and the car, thanks to accessories adapted to various surfaces.

Included in the set

Wall mount

The vacuum cleaner, although smart and neat, does not need to be visible. It can be mounted on a wall bracket and stored away, so that it does not take up space and you can keep everything in order.

AnimalJet electro brush

It is intended for cleaning both hard floors and carpets. Select the appropriate cleaning program (carpet or floor) to remove dust, crumbs and pet hair. The special design of the brush will make it easier to clean the surface also along the walls and furniture. Thanks to LED lighting, you can see dust even in shaded places, e.g. under furniture.

Narrow XL crevice nozzle

Dust and crumbs tend to gather in crevices behind furniture or in car seats. To get rid of them quickly, use the narrow crevice nozzle XL and remove dirt in hard-to-reach places.

2-in-1 brush

With the 2-in-1 nozzle, you can quickly remove dust that gathers on delicate elements such as blinds. A soft brush will adapt to the surface to be cleaned and remove dirt without damaging it. It will also work well when cleaning the car.

Soft brush

You can easily and thoroughly clean the entire cockpit of the car and remove all dust. A soft brush is especially helpful for cleaning ventilation grilles. It can also be used at home for cleaning shelves, computer keyboards or audio equipment.

Flexible extension hose

The 44 cm adjustable hose, which can be stretched up to 110 cm, replaces the telescopic tube when vacuuming small and tight spaces, such as the inside of a car. It also acts as an adapter for a soft brush and a flexible nozzle, creating a practical set of additional cleaning accessories.

Flexible nozzle

Ideal for cleaning difficult to reach and narrow places, e.g. spaces between car seats. Finished with a flat brush with flexible bristles, it will remove dust and fine pollen from every crevice in the car cabin.

*When working in the Eco mode with nozzles without their own motor. The actual operating time may vary depending on the power mode, the type of floor and/or accessories used.

Meet the multifunctional Sharp **SA-VP1551BR** vacuum cleaner

Vertical parking position

The vacuum cleaner does not need a stand and will remain upright wherever you leave it. You don't need to bend down to grab it every time you want to take a break from cleaning. The standing position also makes it easier to store the vacuum cleaner in a wardrobe or a closet. If you prefer, you can hang the device on a special wall-mounted holder.

Adjustable telescopic tube

You can easily adjust the length of the tube to your height and set it at one of the seven levels of adjustment from 890 to 1100 mm. You can also set the length of the tube to thoroughly clean all hard-to-reach places. Vacuuming corners under the ceiling has never been as easy and convenient!

Set of nozzles

Two additional nozzles in the set will make it easier to clean hard-to-reach places such as any corners or elements of upholstered furniture. The flexible bristle of the 2-in-1 nozzle easily and efficiently removes dust and dirt.

Long working time

When fully charged, the lithium-ion battery allows for 60* minutes of uninterrupted vacuuming, which means that you can quickly clean an apartment with a surface of up to 130 m²*. The battery can be easily removed and replaced with a spare one (sold separately on the website) when you plan a bigger clean-up.

Inverter motor

The brushless motor guarantees a quiet operation of the device. Owing to its design, it is extremely durable and reliable. Regardless of the surface that needs to be cleaned, vacuum cleaners with an inverter motor have high suction power and are very efficient.

AnimalJet electro brush with LED light

It has been designed to collect animal hair, hair and dust from floors, carpets, along walls and furniture edges. Thanks to the LED lighting, you won't miss anything, while the appropriate profiling of the brush protects furniture, walls and thresholds from damage.

4-stage filtration

Not only does it protect the motor from dust particles, but it also keeps pollen, mite faeces and bacteria inside the dust container. The EPA E12 filter captures 99.5% of harmful particles. When necessary, you can wash it under running water or replace it with a new one.

Hygienic emptying of the container

Press the button to open the dust container and empty it directly into the dustbin.

Easy cleaning of different types of surfaces

Conveniently and thoroughly clean the entire apartment using accessories for various surfaces.

Included in the set

Wall mount

The vacuum cleaner, although smart and neat, does not need to be visible. It can be mounted on a wall bracket and stored away, so that it does not take up space and you can keep everything in order.

AnimalJet electro brush

It is intended for cleaning both hard floors and carpets. Select the appropriate program (carpet or floor) to remove all dust, crumbs and pet hair. The special design of the brush will make it easier to clean the surface along the walls and furniture. Thanks to LED lighting, you can see dust even in shaded places, e.g. under furniture.

Wąska ssawka szczelinowa XL

W szczelinach za meblami czy w fotelach samochodowych zbierają się kurz i okruchy. Aby się ich szybko pozbyć, wykorzystaj wąską ssawkę szczelinową XL, z którą usuniesz zabrudzenia w trudno dostępnych miejscach.

Ssawka 2 w 1

Kurz zbierający się na delikatnych elementach jak rolety i żaluzje szybko usuniesz ssawką 2 w 1. Miękka szczotka dopasuje się do czyszczonej powierzchni i usunie zabrudzenia, nie uszkadzając jej.

*When working in the Eco mode with nozzles without their own motor. The actual operating time may vary depending on the power mode, the type of floor and/or accessories used.

**When operating in the Eco mode on a hard floor. The actual operating time may vary depending on the power mode, the type of floor and/or accessories used.

***Handheld vacuum cleaner with a telescopic tube and the AnimalJet electric brush.
